January	17, 1997 - Issue 3: Through	December	31, 1996 (Annual)

INTRODUCTION

The *Illinois Register* is the official state document for publishing public notice of rulemaking activity initiated by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. The Register also contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current Register volume year and a Sections Affected Index listing by Title each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume year. Both indices are action coded and are designed to aid the public in monitoring rules.

Rulemaking activity consists of proposed or adopted new rules; amendments to or repealers of existing rules; and rules promulgated by emergency or peremptory action. Executive Orders and Proclamations issued by the Governor; notices of public information required by State statute; and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies; is also published in the Register.

The Register is a weekly update to the *Illinois Administrative Code* (a compilation of the rules adopted by State agencies). The most recent edition of the Code along with the Register comprise the most current accounting of State agencies' rules.

The Illinois Register is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act [5 ILCS 100/1-1 et seq.].

DEPARTMENT OF PUBLIC AID

NOTICE OF PROPOSED AMENDMENTS

1) Heading of the Part: Rights and Responsibilities2) Code Citation: 89 Ill. Adm. Code 102.3) Section Numbers: Proposed Action:

102.200 Amendment

102.210 Amendment

102.235 Amendment

4) Statutory Authority: Section 12-13 of the Illinois Public Aid Code [305 ILCS 5/12-13] and P. A. 89-21.

5) Complete Description of the Subjects and Issues Involved: Pursuant to provisions of P. A. 89-21, changes are being made regarding the recovery of assistance. These proposed amendments broaden the definition of estate to allow the Department's estate claim to encompass jointly held assets held by an AABD client at the time of death. This rulemaking will allow an estate claim against the estate of a deceased spouse of an AABD client even when the spouse dies before the client. In addition, provisions are being added for the Department to waive an estate claim in circumstances where filing the claim would cause a hardship. Several definitions which pertain to institutionalized individuals are also being added to the rules.

This rule change revises the Department's policy on the recovery of assistance by means of an estate claim. The revisions include:

- 1) expanding the definition of "estate" to include those assets conveyed to a survivor through joint tenancy, tenancy in common, life estate, or other arrangement;
- 2) allowing an estate claim against the estate of the spouse of a client, regardless of the order of death; and

- 3) allowing an estate claim to encompass medical assistance paid out for Medicare cost-sharing expenses of a Qualified Medicare Beneficiary (QMB).

6) Will these proposed amendments replace emergency amendments currently in effect? No

7) Does this rulemaking contain an automatic repeal date? No

8) Do these proposed amendments contain incorporations by reference? No

9) Are there any other proposed amendments pending on this Part? No

10) Statement of Statewide Policy Objectives: These proposed amendments do

DEPARTMENT OF PUBLIC AID

NOTICE OF PROPOSED AMENDMENTS

not affect units of local government.

- 11) Time, Place, and Manner in which Interested Persons may comment on this proposed rulemaking: Any interested parties may submit comments, data, views, or arguments concerning this proposed rulemaking. All comments must be in writing and should be addressed to:

Judy Umunna
Bureau of Rules and Regulations
Illinois Department of Public Aid
100 South Grand Ave. E., 3rd Floor
Springfield, IL 62762
(217) 524-0081

The Department requests the submission of written comments within 30 days after the publication of this notice. The Department will consider all written comments it receives during the first notice period as required by Section 5-40 of the Illinois Administrative Procedure Act [5 ILCS 100/5-40].

12) Initial Regulatory Flexibility Analysis:

A) Types of small businesses, small municipalities and not for profit corporations affected: The Department is unaware of any effect this rulemaking may have on small businesses, small municipalities or not-for-profit corporations. The Department will accept and consider any written comments concerning such effects that may be submitted in response to these proposed amendments.

B) Reporting, bookkeeping or other procedures required for compliance: None

C) Types of professional skills necessary for compliance: None

- 13) Regulatory agenda on which this rulemaking was summarized: January 1996

Section 102.200 Recovery of Assistance

- a) By means of claims against the estates of deceased recipients and the estates of their deceased surviving spouses and liens against recipients' real property interests, the Department has a statutory right to recover assistance provided to or in behalf of recipients according to the terms prescribed in this Section.
- b) The Department shall effect its recoveries by one of the following actions:
- 1) Acceptance of an amount, as settlement, equal to the estimated amount which would be collected if the estate were administered or the lien foreclosed;
 - 2) Administration administration of the estate; or
 - 3) Foreclosure foreclosure of the lien.
- c) When the Department has both an estate claim and a real property lien, collection of the claim and lien shall be by one action.
- (Source: Amended at 20 Ill. Reg. _____, effective _____)

Section 102.210 Estate Claims

DEPARTMENT OF PUBLIC AID
NOTICE OF PROPOSED AMENDMENTS

assistance against homestead property of a deceased recipient while the homestead is occupied by one or more of the surviving relatives previously specified.

f) To avoid undue hardship, the Department will waive its right to recover from a decedent's estate to the extent a court approves an award for a surviving spouse or dependent child under the Illinois Probate Act [755 ILCS 5]. The amount of the recovery waived is equal to the amount of the award or awards. Individuals seeking to obtain an award must file a petition with the probate court having jurisdiction over the decedent's estate. The procedure for providing notice to the survivors of the decedent consists of the filing of the claim. Any appeal action taken by the survivors would be with the probate court.

g) The Department may defer or waive enforcement of its claim for income maintenance assistance if it determines that:

- 1) The deceased recipient is survived by a dependent spouse and minor child or children; or
- 2) Rehabilitative training for employment or other means of self-support for the surviving spouse or children is feasible, and deferment or waiver will facilitate achievement of self-support status and prevent or reduce the likelihood of return to dependency on public assistance of the spouse or children.

(Source: Amended at 20 Ill. Reg. _____, effective _____)

Section 102.235 Liens on Property of Institutionalized Recipients

a) Definitions in this Section are as follows:

- 1) "Institutionalized individual" - individual of any age who is an inpatient in a nursing facility or other medical institution and who must, as a condition of receiving services in the institution, apply his or her income to the cost of care.
- 2) "Individual's home" - dwelling with adjoining and related real estate which the individual owns and occupies, or when temporarily absent, maintains an intent to return.
- 3) "Equity interest in the home" - current market value of the home less all encumbrances.
- 4) "Residing in the home for at least one or two years on a continuous basis" - occupancy of an individual's home by a sibling or child of the individual as a primary place of residence. During the one or two year period, the individual's home address was used by the sibling or child as his or her mailing address or address used for driver's license or voter registration purposes, and the address remained unchanged.
- 5) "Discharge from the medical institution and return home" - the attending physician has signed an order for discharge from the

DEPARTMENT OF PUBLIC AID
NOTICE OF PROPOSED AMENDMENTS

a) Definitions in this Section are as follows:

1) "Estate" - all real and personal property within an individual's estate as provided in Illinois probate law. For a decedent who received benefits under a long term care insurance policy in connection with which assets were disregarded, the term "estate" includes all real and personal property in which the individual had legal title or interest at the time of death (to the extent of such interest), including assets conveyed to a survivor, heir or assignee of the deceased person through joint tenancy, tenancy in common, survivorship, life estate, living trust or other arrangement.

2) "Beneficiary" - any person nominated in a will to receive an interest in property other than in a fiduciary capacity.

3) "Heir" - any person entitled under the statutes to an interest in property of a decedent.

b) The Department's claim against the estate of a deceased recipient or against the estate of the deceased recipient's deceased surviving spouse, regardless of the order of death, shall encompass:

- 1) All ~~all~~ income maintenance assistance paid out at any time; and ~~either~~
- 2) All ~~all~~ medical assistance paid out at any time for a permanently institutionalized recipient whose real property is subject to the Department's lien; or
- 3) All ~~all~~ medical assistance paid out prior to October 1, 1993, for a recipient while ~~65~~ 55 years of age or older; or
- 4) All medical assistance paid out on or after October 1, 1993, for a recipient while 55 years of age or older; or
- 5) All medical assistance paid out for Medicare cost sharing expenses of a Qualified Medicare Beneficiary (QMB).

c) The claim shall apply to assistance provided to or in behalf of a recipient on or after the following dates:

Assistance Program	Effective Date
1) AABD (Aged)	1) 1963
(AABD(A))	
2) AABD (Blind) and (Disabled)	2) November, 1963
(AABD(B) and (D))	
3) MANG (Blind), and (Disabled)	3) January 1, 1966
(MANG(A),(B), and (D))	

d) The Department shall not enforce a claim for medical assistance against any property, real or personal, of a deceased recipient while one or more of the following relatives survives: spouse of decedent, child under 21, or child over 21 who is blind or permanently and totally disabled.

e) The Department shall not enforce a claim for income maintenance

DEPARTMENT OF PUBLIC AID

NOTICE OF PROPOSED AMENDMENTS

medical institution, following which the individual has returned to reside in his or her own home.

- 6) "Lawfully residing" - use of the property of an individual in a medical institution as the home of a spouse or a minor, blind or disabled child, or a sibling with an ownership interest in the home. Such property must be the spouse's child's or sibling's mailing address or address used for driver's license or voter registration purposes.

b) Except as provided in subsection (c) of this Section ~~for~~ below, the Department shall file a lien on all real property, including the home, of a recipient of MANG(A), (B) or (D) who it determines to be permanently institutionalized, that is ~~it~~, cannot reasonably be expected to be discharged and return home from a medical ~~long-term~~ care institution.

c) The Department will not file a lien on the home if it is occupied by the permanently institutionalized recipient's spouse, minor or disabled or blind child, or sibling who has an equity interest in the home and has legally resided in it continuously for at least one year immediately before the date the recipient was admitted to a medical ~~long-term-care~~ institution.

d) There shall be a rebuttable presumption of permanent institutionalization when a recipient has resided for at least 120 calendar days in one or more medical institutions ~~for long-term care~~.

e) The Department shall provide the recipient with at least 10 calendar days advance notice of its intention to file a lien on the recipient's real property, based on its determination that the recipient is permanently institutionalized, and of the recipient's right to request and obtain a fair hearing on this determination.

AUTHORITY: Implementing and authorized by Section 4A-105 of the Illinois Governmental Ethics Act [5 ILCS 420/4A-105].

SOURCE: Adopted at 20 Ill. Reg. _____, effective _____.

Section 565.20 Purpose

These rules shall apply only to persons notified by the Secretary of State of their requirement to file statements of economic interests pursuant to Section 4A-101 of the Act [5 ILCS 420/4A-101]. The purpose of these rules is to extend the filing deadline for statements of economic interests upon a showing of just cause as to why the form cannot be filed in a timely manner. Persons granted filing extensions shall have 30 days from their original filing deadline in which to file forms without penalty.

Section 565.30 Definitions

"Act" means the Illinois Governmental Ethics Act [5 ILCS 420/4A].

"Department" means the Secretary of State Index Department.

"Filer" means a person notified by the Department of his or her requirement to file a statement of economic interests pursuant to Section 4A-101 of the Act.

"Immediate family" means a spouse or dependent child of the filer.

"Serious illness" means any illness which can be documented to the Department by a physician's note.

Section 565.40 Requests For Extensions

SECRETARY OF STATE

NOTICE OF PROPOSED RULE(S)

All requests for extensions shall be submitted in writing to the Secretary of State Index Department at 111 E. Monroe Street, Springfield, Illinois 62756. Requests shall include any documentation in support of the filer's reason, including, but not limited to, a physician's note or a receipt of mailing.

Section 565.50 Reasons For Which Extensions Will Be Granted

The Department will extend the filing deadline for 30 days, or longer if the Department deems a longer period is required by the circumstances, beyond the filer's due date for the following reasons:

- a) Death or hospitalization of an immediate family member;
- b) Hospitalization or serious illness of the filer;
- c) Filer was on sabbatical during the original filing period;
- d) Filer did not receive the form due to an incorrect address;
- e) Other reasons within the discretion of the Department. This provision shall be narrowly construed.

Section 565.60 Reasons For Which Extensions Will Not Be Granted

The Department will not extend the filing deadline for the following reasons:

- a) Filer delegated the duty to an individual who failed to file on behalf of the filer for any reason;
- b) Filer claims that the Statement was mailed in a timely manner, yet cannot provide proof of mailing (this includes U.S. mail, overnight service, and inter-office mail);
- c) Filer was ill, but has no documentation from a physician;
- d) Other reasons within the discretion of the Department. The Department's refusal to grant a filing extension is not subject to appeal.

Section 565.70 Failure to File Upon Receipt of Extension

Statements of Economic Interests not filed within the 30 day extended filing period shall be subject to the statutory penalties of:

- a) \$15 for forms filed within 15 days after the extended filing deadline;
- b) \$15, plus \$100 per day, for forms filed more than 15 days after the extended filing deadline.

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

- 1) Heading of the Part: Definitions and General Provisions
- 2) Code Citation: 35 Ill. Adm. Code 211
- 3)

Section Numbers:	Adopted Action:
211.101	Amended
211.484	New
211.485	New
211.1465	New
211.2110	Repealed
211.2130	Repealed
211.3990	Repealed
211.4010	Repealed
211.4130	Amended
- 4) Statutory Authority: 415 ILCS 5/27 and 28.5
- 5) Effective Date of Rulemaking: May 22, 1996
- 6) Does this rulemaking contain an automatic repeal date? No
- 7) Does this rulemaking contain incorporations by reference? Yes
- 8) Date Filed in Agency's Principal Office: May 17, 1996
- 9) Notice of Proposal Published in Illinois Register: 19 Ill. Reg. 15925, December 1, 1995
- 10) Has JCAR issued a Statement of Objections to these rules? No
- 11) Difference(s) between proposal and final version: In Section 211.484, "Kingdom, Animal" was changed to "Kingdom, Animalia", and "plants" was deleted and replaced with "other multicellular organisms".
- 12) Have all the changes agreed upon by the agency and JCAR been made as indicated in the agreement letter issued by JCAR? Yes
- 13) Will this rulemaking replace an emergency rule currently in effect? No
- 14) Are there any amendments pending on this Part? No
- 15) Summary and Purpose of Rulemaking: This proposal is part of a rulemaking that addresses USEPA's conditional approval of Illinois PM-10 state implementation plan ("SIP"). USEPA designated Lake Calumet and McCook areas in Cook County and Granite City in Madison County as moderate nonattainment areas for PM-10. As result, Illinois developed the state implementation plan for PM-10. The USEPA conditionally approved the SIP on November 18, 1994 (59 F.R. 59653). The USEPA cited to four issues

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

which needed to be addressed in rulemaking prior to full SIP approval noting that failure to do so could subject Illinois to monetary and other sanctions. The amendments to this Part along with amendments proposed to today in Part 212 will address USEPA concerns. A more complete description may be found in the Board's opinions and order of May 16, 1996 in this docket R96-5, available from the address below.

(6) Information and questions regarding these adopted amendments shall be directed to:

Marie Tipsord
100 W. Randolph Street
James R. Thompson Center
Suite 11-500
Chicago IL 60601
(312) 814-4925

Requests for copies of the rule should be addressed to the Clerk's office at (312) 814-3620.

APPENDIX A Rule into Section Table
APPENDIX B Section into Rule Table

AUTHORITY: Implementing Sections 9, 9.1 and 10 and authorized by Sections 27 and 28.5 of the Environmental Protection Act [415 ILCS 5/9, 9.1, 10, 27 and 28.5].

SOURCE: Adopted as Chapter 2: Air Pollution, Rule 201: Definitions, R71-23, 4 PCB 191, filed and effective April 14, 1972; amended in R74-2 and R75-5, 32 PCB 295, at 3 Ill. Reg. 5, p. 777, effective February 3, 1979; amended in R78-3 and 4, 35 PCB 75 and 243, at 3 Ill. Reg. 30, p. 124, effective July 28, 1979; amended in R80-5, at 7 Ill. Reg. 1244, effective January 21, 1983; codified at 7 Ill. Reg. 13590; amended in R82-1 (Docket A) at 10 Ill. Reg. 12624, effective July 7, 1986; amended in R85-21(A) at 11 Ill. Reg. 11747, effective June 29, 1987; amended in R86-34 at 11 Ill. Reg. 12267, effective July 10, 1987; amended in R86-39 at 11 Ill. Reg. 20804, effective December 14, 1987; amended in R82-14 and R86-37 at 12 Ill. Reg. 787, effective December 24, 1987; amended in R86-18 at 12 Ill. Reg. 7284, effective April 8, 1988; amended in R86-10 at 12 Ill. Reg. 7621, effective April 11, 1988; amended in R88-23 at 13 Ill. Reg. 10862, effective June 27, 1989; amended in R89-8 at 13 Ill. Reg. 17457, effective January 1, 1990; amended in R89-16(A) at 14 Ill. Reg. 9141, March 28, 1991; amended in R88-14 at 15 Ill. Reg. 7901, effective May 14, 1991; amended in R91-10 at 15 Ill. Reg. 15564, effective October 11, 1991; amended in R91-6 at 15 Ill. Reg. 15673, effective October 14, 1991; amended in R91-22 at 16 Ill. Reg. 7656, effective May 1, 1992; amended in R91-24 at 16 Ill. Reg. 13526, effective August 24, 1992; amended in R93-9 at 17 Ill. Reg. 16504, effective September 27, 1993; amended in R93-11 at 17 Ill. Reg. 21471, effective December 7, 1993; amended in R93-14 at 18 Ill. Reg. 1253, effective January 18, 1994; amended in R94-12 at 18 Ill. Reg. 14962, effective September 21, 1994; amended in R94-14 at 18 Ill. Reg. 15744, effective October 17, 1994; amended in R94-15 at 18 Ill. Reg. 16379, effective October 25, 1994; amended in R94-16 at 18 Ill. Reg. 16929, effective November 15, 1994; amended in R94-21, R94-31 and R94-32 at 19 Ill. Reg. 6823, effective May 9, 1995; amended in R94-33 at 19 Ill. Reg. 7344, effective May 22, 1995; amended in R95-2 at 19 Ill. Reg. 11066, effective July 12, 1995; amended in R95-16 at 19 Ill. Reg. 15176, effective October 19, 1995; amended in R96-5 at 20 Ill. Reg. 7590 = 7 effective MAY 2 2 1996.

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

BOARD NOTE: This Part implements the Illinois Environmental Protection Act as of July 1, 1994.

NOTE: In this Part, superscript numbers or letters are denoted by parentheses; subscript are denoted by brackets.

SUBPART A: GENERAL PROVISIONS

Section 211.101 Incorporations by Reference

The following materials are incorporated by reference. These incorporations do not include any later amendments or editions.

SUBPART B: DEFINITIONS

Section 211.484 Animal

"Animal" means any organism other than a human being of the kingdom, Animalia, distinguished from other multicellular organisms by certain typical characteristics such as the power of locomotion, fixed structure and limited growth, and non-photosynthetic metabolism.

(Source: Added at 20 Ill. Reg. 7590 =, effective MAY 2 2 1996)

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

Section 211.485 Animal Pathological Waste

"Animal pathological waste" means waste composed of whole or parts of animal carcasses and also noncarcass materials such as plastic, paper wrapping and animal collars. Noncarcass materials shall not exceed ten percent by weight of the total weight of the carcass and noncarcass materials combined.

(Source: Added at 20 Ill. Reg. 7590, effective MAY 2 2 1996)

Section 211.1465 Continuous Automatic Stoking

"Continuous automatic stoking" means the automatic moving of animal pathological waste during burning, by moving the hearth in a pulse cycle manner, which process is designed to provide a continuous burning rate in which the design charging rate per hour equals the burning rate every hour without limitation, and results in emission rates which are similar over any hour of the burning process.

(Source: Added at 20 Ill. Reg. 7590, effective MAY 2 2 1996)

Section 211.2110 Existing Grain-Drying Operation (Repealed)

"Existing--grain-drying--operation" means--any--grain-drying--operation--the construction or modification of which was commenced prior to June 30, 1975.

(Source: Repealed at 20 Ill. Reg. 7590, effective MAY 2 2 1996)

Section 211.2130 Existing Grain-Handling Operation (Repealed)

"Existing--grain-handling--operation" means--any--grain-handling--operation--the construction or modification of which was commenced prior to June 30, 1975.

(Source: Repealed at 20 Ill. Reg. 7590, effective MAY 2 2 1996)

Section 211.3990 New Grain-Drying Operation (Repealed)

"New--grain-drying--operation" means any grain-drying operation the construction or modification of which commenced on or after June 30, 1975.

(Source: MAY 2 2 1996 at 20 Ill. Reg. 7590, effective)

Section 211.4010 New Grain-Handling Operation (Repealed)

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

"New--grain-handling--operation" means--any--grain-handling--operation--the construction or modification of which commenced on or after June 30, 1975.

(Source: Repealed at 20 Ill. Reg. 7590, effective MAY 2 2 1996)

Section 211.4130 Opacity

"Opacity" means at for purposes of Part 212 a condition which renders material partially or wholly impervious to transmittance of light and causes obstruction of an observer's view--for the purposes of these regulations, the following equivalence between opacity and Ringelmann shall be employed:

Opacity-Percent	Ringelmann
10	0-5
20	1-1
30	1-5
40	2-1
60	3-1
80	4-1
100	5-1

but that that fraction of light, expressed in percent, which when transmitted from a source through a smoke-obscured path, is prevented from reaching the observer or instrument receiver.

(Source: Amended at 20 Ill. Reg. 7590, effective MAY 2 2 1996)

4) Statutory Authority: 415 ILCS 5/27

5) Effective Date of Rulemaking: May 22, 1996

6) Does this rulemaking contain an automatic repeal date? No

7) Does this rulemaking contain incorporations by reference? Yes

8) Date Filed in Agency's Principal Office: May 16, 1996

9) Notice of Proposal Published in Illinois Register: 19 Ill. Reg. 15940, December 1, 1995

10) Has JCAR issued a Statement of Objections to these rules? No

11) Difference(s) between proposal and final version:

Throughout the rule the "l" for liter was replaced with "L".

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

- In Section 212.108, the word "emissions" was changed to "emission".
- In Section 212.110(c), 212.324(g)(4), and 212.424(e)(3), "of" was changed to "after".
- In Section 212.111, "tone" was changed to "ton".
- In Section 212.113(b), "1990" was stricken and "1994" was added.
- In Section 212.113(j), "1994" was removed and "1992" was unstricken, the language should remain as it is in current existing language.
- In Section 212.123(b), "source" was stricken out and "unit" was added.
- In Sections 212.124(d)(2)(A) and 212.124(d)(2)(B), "device(s)" was changed to "devices".
- Throughout Section 212.126, "test(s)" was changed to "tests".
- In Section 212.126(i), a comma was added after "Subpart E".
- In Section 212.185(b), after the word "any" and before the word "incinerator" add the following phrase: "continuous automatic stoking pathological waste" and the following was stricken: ", as defined in this section".
- Section 212.315 was reinstated and the citations were updated. In addition, a Board Note was added stating that "Pursuant to Section 10(E) of the Act, Section 212.315 cannot be more strict than Section 15-109.1 of the Vehicle Code [625 ILCS 5/15-109.1]".
- In Sections 212.324(c)(1) and 212.458(b)(6), "filter(s)" was changed to "filters".
- In Section 212.324(f), "Section 201.149 of this Part" was changed to "35 Ill. Adm. Code 201.149".
- In Section 212.324(g)(6), a comma was added after "Agency".
- In Section 212.361, after "Section 212.322" the following was added: "of this Part".
- In Section 212.443(b)(1)(B)(vi), a comma was added after "interrupted".
- In Section 212.443(g)(2), "flue(s)" was changed to "flues" and "Sections" was changed to "Section".
- In Section 212.443(g)(2), the language was replaced with the following:

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

- 2) No person shall cause or allow the emission of particulate matter from a coke oven combustion stack to exceed 30% opacity.
- In Section 212.444(c), "pub" was changed to "pubg".
- In Section 212.446(c), the last sentence was deleted.
- Sections 212.456 and 212.457 were reworded and relettered.
- In Section 212.458, the word "total" was added before "steel" and the word "produced" was replaced with "in process".
- In Section 212.458(b)(25), the phrase "no more than" was added before the phrase "two lines".
- In Section 212.458(b)(21), (b)(27), (b)(31) and (b)(32), "lb/hr" was changed to "lbs/hr" and "lbs/hr" was changed to "lb/hr" as appropriate.
- In Section 212.461(d), "existing" was stricken out.
- After Section 212.462(b)(2), a Board Note was added stating that "Pursuant to Section 9 of the Act, certain country grain elevators are exempt from subsection (b) of this Section.
- 12) Have all the changes agreed upon by the agency and JCAR been made as indicated in the agreement letter issued by JCAR? Yes
- 13) Will this rulemaking replace an emergency rule currently in effect? No
- 14) Are there any amendments pending on this Part? No
- 15) Summary and Purpose of Rulemaking: This proposal is part of a rulemaking that addresses USEPA's conditional approval of Illinois' PM-10 state implementation plan ("SIP"). USEPA designated Lake Calumet and McCook areas in Cook County and Granite City in Madison County as moderate nonattainment areas for PM-10. As a result, Illinois developed the state implementation plan for PM-10. The USEPA conditionally approved the SIP on November 18, 1994 (59 F.R. 59653). The USEPA cited to four issues which needed to be addressed in rulemaking prior to full SIP approval noting that failure to do so could subject Illinois to monetary and other sanctions. The amendments to this Part along with amendments proposed today in Part 211 will address USEPA concerns. A more complete description may be found in the Board's opinion and order of May 16, 1996 in this docket R96-5, available at the address below. The proposed revisions to 35 Ill. Adm. Code 212 also update existing language consistent with Illinois' Clean Air Act Permit Program and a general clean-up of the rules.

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

- 16) Information and questions regarding these adopted amendments shall be directed to:

Marie E. Tipsord
100 W. Randolph Street
James R. Thompson Center
Suite 11-500
Chicago, IL 60601
(312) 814-4925

Requests for copies of the rule should be addressed to the Clerk's office at (312) 814-3620.

NOTICE OF ADOPTED AMENDMENTS

July 9, 1986; amended in R85-33 at 10 Ill. Reg. 18030, effective October 7, 1986; amended in R84-48 at 11 Ill. Reg. 691, effective December 18, 1986; amended in R84-42 at 11 Ill. Reg. 1410, effective December 30, 1986; amended in R82-1 (Docket B) at 12 Ill. Reg. 12492, effective July 13, 1988; amended in R91-6 at 15 Ill. Reg. 15708, effective October 4, 1991; amended in R89-7(B) at 15 Ill. Reg. 17710, effective November 26, 1991; amended in R91-22 at 16 Ill. Reg. 7880, effective May 11, 1992; amended in R91-35 at 16 Ill. Reg. 8204, effective May 15, 1992; amended in R93-30 at 18 Ill. Reg. 11587, effective July 11, 1994; amended in R96-5 at 20 Ill. Reg. 7605, effective MAY 22 1996.

NOTE: In this Part, superscript numbers or letters are denoted by parentheses; subscript are denoted by brackets.

BOARD NOTE: This Part implements the Illinois Environmental Protection Act as of July 1, 1994.

SUBPART A: GENERAL

Section 212.100 Scope and Organization

- a) This Part contains standards and limitations for visible ~~visual~~ and particulate matter emissions from stationary emission units sources.
 b) Permits for sources subject to this Part may be required pursuant to 35 Ill. Adm. Code 201.
 c) Notwithstanding the provisions of this Part, the air quality standards contained in 35 Ill. Adm. Code 243 may not be violated.

d) This Part includes Subparts which are arranged as follows:

- 1) Subpart A: General Provisions;
- 2) Subpart B: Visible ~~visual~~ Emissions;
- 3) Subparts C-J: Incinerators and Fuel Combustion Emission Units Sources;
- 4) Subparts K-M: Fugitive and Process Emission Units Sources;
- 5) Subparts N-T: Site specific and industry specific rules; and;
- 6) Subpart U: Additional control measures.

- e) Rules have been grouped for the convenience of the public; the scope of each is determined by its language and history.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 22 1996)

Section 212.107 Measurement Method for Visible Emissions

For both fugitive and nonfugitive particulate matter emissions, a determination as to the presence or absence ~~Detection~~ of visible emissions from ~~both-process~~ emission units sources-and-fugitive-particulate-matter-emission-sources shall be conducted in accordance with Method 22, 40 CFR Part 60, Appendix A,

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

incorporated by reference in Section 212.113 of this Subpart, except that the length of the observing period shall be at the discretion of the observer, but not less than one minute. This Subpart shall not apply to Section 212.301 of this Part.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2, 1996)

Section 212.108 Measurement Methods for PM-10 Emissions and Condensible PM-10 Emissions

a) Emissions of PM-10 shall be measured by any of the following methods at the option of the owner or operator of an emission unit ~~emissions source~~.

1) Method 201, 40 CFR part 51, Appendix M, incorporated by reference in Section 212.113 of this Subpart.

2) Method 201A, 40 CFR part 51, Appendix M, incorporated by reference in Section 212.113 of this Subpart.

3) Method 5, 40 CFR part 60, Appendix A, incorporated by reference in Section 212.113 of this Subpart, provided that all particulate matter measured by Method 5 shall be considered to be PM-10.

b) Emissions of condensible PM-10 shall be measured by Method 202, 40 CFR part 51, Appendix M, incorporated by reference in Section 212.113 of this Subpart.

c) The volumetric flow rate and gas velocity for stack test methods shall be determined in accordance with Methods 1, 1A, 2, 2A, 2C, 2D, 3, or 4, 40 CFR part 60, Appendix A, incorporated by reference in Section 212.113 of this Subpart.

d) Upon a written notification by the Illinois Environmental Protection Agency (Agency), the owner or operator of a PM-10 emission unit ~~source~~ subject to this Section shall conduct the applicable testing for PM-10 emissions, condensible PM-10 emissions, opacity, or visible emissions at such person's own expense, to demonstrate compliance. Such test results shall be submitted to the Agency within thirty (30) days after conducting the test unless an alternative time for submittal is agreed to by the Agency.

e) A person planning to conduct testing for PM-10 or condensible PM-10 emissions to demonstrate compliance shall give written notice to the Agency of that intent. Such notification shall be given at least ten (10) days prior to initiation of the test unless a shorter notification is agreed to by the Agency. Such notification shall state the specific test methods from subsection (a) of this Section that will be used.

f) The owner or operator of an emission unit ~~source~~ subject to this Section shall retain records of all tests which are performed. These records shall be retained for at least three (3) years after the date a test is performed.

g) This Section shall not affect the authority of the United States

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

Environmental Protection Agency (USEPA) under Section 114 of the Clean Air Act [CAA] (42 U.S.C. Section 7414 (1990)).

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2, 1996)

Section 212.109 Measurement Methods for Opacity

Except as otherwise provided in this Part, and except for the methods of data reduction when applied to Sections 212.122 and 212.123 of this Part, measurements of opacity shall be conducted in accordance with Method 9, 40 CFR part 60, Appendix A, and the procedures in 40 CFR 60.675(c) and (d), if applicable, incorporated by reference in Section 212.113 of this Subpart, except that for roadways and parking areas the number of readings required for each vehicle pass will be three taken at 5-second intervals. The first reading shall be at the point of maximum opacity and second and third readings shall be made at the same point, the observer standing at right angles to the plume at least 15 feet away from the plume and observing 4 feet above the surface of the roadway or parking area. After four vehicles have passed, the 12 readings will be averaged.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2, 1996)

Section 212.110 Measurement Methods For Particulate Matter

a) ~~Particulate-Matter-Measurement~~: Measurement of particulate ~~Particulate~~ matter emissions from stationary emission units ~~sources~~ subject to this Part shall be conducted in accordance with 40 CFR part 60, Appendix A, Methods 5, 5A, 5D, or 5E, as incorporated by reference in Section 212.113 of this Subpart.

b) ~~Flow-Rate-and-Gas-Velocity-Measurement~~: The volumetric flow rate and gas velocity shall be determined in accordance with 40 CFR part 60, Appendix A, Methods 1, 1A, 2, 2A, 2C, 2D, 3, and 4, incorporated by reference in Section 212.113 of this Subpart.

c) ~~Opacity-Measurement~~: ~~Measurement of opacity shall be conducted in accordance with 40 CFR part 60, Appendix A, Methods 9 and 10, as incorporated by reference in Section 212.113~~

d) ~~Visible-Emissions-Measurement~~: ~~A determination as to the presence or absence of visible emissions from all processes, emission sources, and fugitive particulate emission sources, except with respect to Section 212.301, shall be conducted in accordance with 40 CFR part 60, Appendix A, Method 22, incorporated by reference in Section 212.113, except that the length of the observing period shall be at the discretion of the observer, but not less than one minute.~~

e) ~~Test-Methods-for-PM-10-Emissions~~: ~~Emissions of PM-10 shall be measured by any of the following methods at the option of the owner or operator of an emissions source.~~

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

- 1) 40-CFR-51-Appendix-M-Method-2017-incorporated-by-reference-in Section-212-113.
- 2) 40-CFR-51-Appendix-M-Method-2017-incorporated-by-reference-in Section-212-113.
- 3) 40-CFR-60-Appendix-A-Method-57-incorporated-by-reference-in Section-212-113.
- 4) Test-Methods-for-Condensable-PM-10-Emissions-Method-402-incorporated-by-reference-in-Section-212-113.
- 5) Upon a written notification by the Agency, the owner or operator of a particulate matter PM-10 emission unit source subject to this Part shall conduct the applicable testing for particulate matter PM-10 emissions, condensable-PM-10-emissions, opacity, or visible emissions at such person's own expense, to demonstrate compliance. Such test results shall be submitted to the Agency within thirty (30) days after of conducting the test unless an alternative time for submittal is agreed to by the Agency.
- 6) A person planning to conduct testing for particulate matter PM-10-or condensable-PM-10 emissions to demonstrate compliance shall give written notice to the Agency of that intent. Such notification shall be given at least thirty (30) days prior to the initiation of the test unless a shorter period is agreed to by the Agency. Such notification shall state the specific test methods from this Section that will be used.
- 7) The owner or operator of an emission unit source subject to this Part shall retain records of all tests which are performed. These records shall be retained for at least three (3) years after the date a test is performed.
- 8) This Section shall not affect the authority of the USEPA 40-CFR-Environmental-Protection-Agency under Section 114 of the Clean-Air Act-42-8-54-A-Part-7401-et-seq--1997.

Section 212.111 Abbreviations and Units

- a) The following abbreviations are used in this Part:

btu	British thermal units (60 1/4 F)
dscf	dry standard cubic foot
ft	foot
ft(2)	square feet
fpm	feet per minute
gal	gallon
gr	grains
gr/scf	grains per standard cubic foot

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

gr/dscf	grains per dry standard cubic foot
hr	hour
J	Joule
kg	kilogram
kg/NW-hr	kilograms per megawatt-hour
km	kilometer
L	liter
lbs	pounds
lbs/hr	pounds per hour
lbs/mmBtu	pounds per million btu
m	meter
m(2)	square meters
mph	miles per hour
mg	milligram
mg/scm	milligrams per standard cubic meter
mg/dscm	milligrams per dry standard cubic meter
mg/Lmg/l	milligrams per liter
Mg	megagram, metric ton
mi	mile
mmBtu	million British thermal units
mmBtu/hr	million British thermal units per hour
MW	megawatt; one million watts
MW-hr	megawatt-hour
ng	nanogram; one billionth of a gram
ng/J	nanograms per Joule
scf	standard cubic foot
scfm	standard cubic feet per minute
scm	standard cubic meter
T	short English ton (2000 lbs)
yd(2)	square yards

- b) The following conversion factors have been used in this Part:

English	Metric
2.205 lb	1 kg
1 T	0.907 Mg
1 lb/T	0.500 kg/Mg
mmBtu/hr	0.293 MW
1 lb/mmBtu	1.548 kg/MW-hr or 430 ng/J
1 mi	1.61 km
1 gr	64.81 mg
1 gr/scf	2289 mg/scm
1 ft(2)	0.0929 m(2)
1 ft foot	square-meter
1 gal	0.3048 m
	3.785 L

SUBPART B: VISUAL EMISSIONS

Section 212.121 Opacity Standards (Repealed)

~~For the purposes of this Subpart, all visible emission opacity standards and limitations shall be considered equivalent to corresponding Ringelman Chart readings as described under the definition of opacity (35-III-Adm-Code 212-122).~~

(Source: Repealed at 20 Ill. Reg. **7605**, effective MAY 22 1996)

Section 212.122 Visible Emissions Limitations for Certain Emission Units For Which Construction or Modification Commenced On or After April 14, 1972 **New Sources**

- a) ~~New Fuel-Combustion-Emission-Sources-with-Actual-Heat-Input-Greater than-250-mmBtu/hr.~~ No person shall cause or allow the emission of smoke or other particulate matter into the atmosphere from any new fuel combustion emission unit for which construction or modification commenced on or after April 14, 1972, ~~source~~ with actual heat input greater than 73.2 MW (250 mmBtu/hr), having an opacity greater than 20 percent.
- b) ~~Exception:~~ The emissions of smoke or other particulate matter from any such emission unit ~~source~~ may have an opacity greater than 20 percent but not greater than 40 percent for a period or periods aggregating 3 minutes in any 60 minute period, providing that such more opaque emission permitted during any 60 minute period shall occur from only one such emission unit ~~source~~ located within a 305 m (1000 ft) radius from the center point of any other such emission

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

unit source owned or operated by such person and provided further that such more opaque emissions permitted from each such fuel combustion emission unit source shall be limited to 3 times in any 24 hour period.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.123 Visible Emissions Limitations for All Other Emission Units Sources

- No person shall cause or allow the emission of smoke or other particulate matter, with an opacity greater than 30 percent, into the atmosphere from any emission unit source other than those emission units sources subject to Section 212.122 of this Subpart.
- ~~Exception:~~ The emission of smoke or other particulate matter from any such emission unit source may have an opacity greater than 30 percent but not greater than 60 percent for a period or periods aggregating 8 minutes in any 60 minute period provided that such more opaque emissions permitted during any 60 minute period shall occur from only one such emission unit source located within a 305 m (1000 ft) radius from the center point of any other such emission unit source owned or operated by such person, and provided further that such more opaque emissions permitted from each such emission unit source shall be limited to 3 times in any 24 hour period.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.124 Exceptions

- ~~Startup-Malfunction-and-Breakdown:~~ Sections 212.122 and 212.123 of this Subpart shall apply during times of startup, malfunction and breakdown except as provided in the operating permit granted in accordance with 35 Ill. Adm. Code 201.
- ~~Emissions-of-water-and-water-vapor:~~ Sections 212.122 and 212.123 of this Subpart shall not apply to emissions of water or water vapor from an emission unit source.
- ~~Adjusted--standards:~~ An emission unit source which has obtained an adjusted opacity standard pursuant to Section 212.126 of this Subpart shall be subject to that standard rather than the limitations of Section 212.122 or 212.123 of this Subpart.
- Compliance with the particulate regulations of this Part shall constitute a defense.

- For all emission units sources which are not subject to Chapters 111 or 112 of the CAA ~~Clean-Air-Act-(42-U-S-C-Ar--7491--et--seq-)~~ and Sections 212.201, 212.202, 212.203 or 212.204 of this Part but which are subject to Sections 212.122 or 212.123 of this

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

Subpart: the the opacity limitations of Sections 212.122 and 212.123 of this Subpart shall not apply if it is shown that the emission unit source was, at the time of such emission, in compliance with the applicable particulate emissions limitations of Subparts D- through T of this Part.

- For all emission units sources which are not subject to Chapters 111 or 112 of the CAA ~~Clean-Air-Act~~ but which are subject to Sections 212.201, 212.202, 212.203 or 212.204 of this Part and ~~either-Section-212-122-or-212-123:~~

- An exceedance of the limitations of Section 212.122 or 212.123 of this Subpart shall constitute a violation of the applicable particulate limitations of Subparts D- through T of this Part. It shall be a defense to a violation of the applicable particulate limitations if, during a subsequent performance test conducted within a reasonable time not to exceed 60 days, under the same operating conditions for the unit source and the control devices devices, and in accordance with Method 5, 40 CFR part 60, incorporated by reference in Section 212.113 of this Part, the owner or operator shows that the emission unit source is in compliance with the particulate emission limitations.

- It shall be a defense to an exceedance of the opacity limit if, during a subsequent performance test conducted within a reasonable time not to exceed 60 days, under the same operating conditions of the emission unit source and the control devices devices, and in accordance with Method 5, 40 CFR part 60, Appendix A, incorporated by reference in Section 212.113 of this Part, the owner or operator shows that the emission unit source is in compliance with the allowable particulate emissions limitation while, simultaneously, having visible emissions equal to or greater than the opacity exceedance as originally observed.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.125 Determination of Violations

Violations of Sections 212.122 and 212.123 of this Subpart shall be determined:

- By visual observations conducted in accordance with Section 212.109 of this Part; or
- By the use of a calibrated smoke evaluation device approved by the Agency as specified in Subpart J of 35 Ill. Adm. Code 201; or
- By the use of a smoke monitor located in the stack and approved by the Agency as specified in Subpart J or L of 35 Ill. Adm. Code 201.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

MAY 22 1996

Section 212.126 Adjusted Opacity Standards Procedures

- a) Pursuant to Section 28.1 of the Environmental Protection Act (Act) [415 ILCS 5/28.1] ~~that~~ ~~Rev-Stat-1987-ch--111-1/2--pags--1028-17,~~ and in accordance with 35 Ill. Adm. Code 106.2 Subpart E, provisions for adjusted ~~visible-emissions~~ standards for visible emissions for emission units ~~sources~~ subject to Sections 212.201, 212.202, 212.203, or 212.204 of this Part ~~and either Section 212.122 or 212.123~~ shall be granted by the Board to the extent consistent with federal law based upon a demonstration by such owner or operator ~~a source~~ that the results of a performance test conducted pursuant to this Section, Section 212.110 of this Part, and Methods 5 and 9 of 40 CFR part 60, Appendix A, incorporated by reference in Section 212.113 of this Part, show that the emission unit ~~source~~ meets the applicable particulate emission limitations at the same time that the visible emissions exceed the otherwise applicable standards of Sections 212.121 through 212.125 of this Subpart. Such adjusted opacity limitations:
- 1) Shall be specified as a condition in operating permits issued pursuant to 35 Ill. Adm. Code 201 and Section 39.5 of the Act;
 - 2) Shall substitute for that limitation otherwise applicable;
 - 3) Shall not allow an opacity greater than 60 percent at any time; and
 - 4) Shall allow opacity for one six-minute averaging period in any 60 minute period to exceed the adjusted opacity standard.

- b) For the purpose of establishing an adjusted opacity standard, any owner or operator of an emission unit ~~source~~ which meets the requirements of subsection (a) of this Section ~~--above~~, may request the Agency to determine the average opacity of the emissions from the emission unit ~~source~~ during any performance tests ~~tests~~ conducted pursuant to Section 212.110 of this Part and Methods 5 and 9 of 40 CFR part 60, Appendix A, incorporated by reference in Section 212.113 of this Part. The Agency shall refuse to accept the results of emissions tests if not conducted pursuant to this Section.
- c) Any request for the determination of the average opacity of emissions shall be made in writing, shall include the time and place of the performance test and test specifications and procedures, and shall be submitted to the Agency at least thirty (30) days before the proposed test date.
- d) The Agency will advise the owner or operator of an emission unit ~~source~~ which has requested an opacity determination of any deficiencies in the proposed test specifications and procedures as expeditiously as practicable but no later than ten (10) days prior to the proposed test date so as to minimize any disruption of the proposed testing schedule.
- e) The owner or operator shall allow Agency personnel to be present during the performance test.

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

- f) The method for determining an adjusted opacity standard is as follows:
- 1) A minimum of 60 consecutive minutes of opacity readings obtained in accordance with ~~USEPA~~ Test Method 9, 40 CFR part 60, Appendix A, incorporated by reference in Section 212.113 of this Part, shall be taken during each sampling run. Therefore, for each performance test (which normally consists of three sampling runs), a total of three sets of opacity readings totaling three hours or more shall be obtained. Concurrently, the particulate emissions data from three sampling runs obtained in accordance with ~~USEPA~~ Test Method 5, 40 CFR part 60, Appendix A, incorporated by reference in Section 212.113 of this Part, shall also be obtained.
 - 2) After the results of the performance tests are received from the emission unit ~~source~~, the status of compliance with the applicable particulate emissions limitation shall be determined by the Agency. In accordance with ~~USEPA~~ Test Method 5, 40 CFR part 60, Appendix A, incorporated by reference in Section 212.113 of this Part, the average of the results of the three sampling runs must be less than the allowable particulate emission rate in order for the emission unit ~~source~~ to be considered in compliance. If compliance is demonstrated, then only those test runs with results which are less than the allowable particulate emission rate shall be considered as acceptable test runs for the purpose of establishing an adjusted opacity standard.
 - 3) The opacity readings for each acceptable sampling run shall be divided into sets of 24 consecutive readings. The six (6) -minute average opacity for each set shall be determined by dividing the sum of the 24 readings within each set by 24.
 - 4) The second highest six (6) -minute average opacity obtained in subsection (f)(3) of this Section ~~above~~ shall be selected as the adjusted opacity standard.
 - g) The owner or operator shall submit a written report of the results of the performance test to the Agency at least thirty (30) days prior to filing a petition for an adjusted standard with the Board.
 - h) If, upon review of such owner's or operator's written report of the results of the performance tests ~~tests~~, the Agency determines that the emission unit ~~source~~ is in compliance with all applicable emission limitations for which the performance tests were conducted, but fails to comply with the requirements of Section 212.122 or 212.123 of this Subpart, the Agency shall notify the owner or operator as expeditiously as practicable, but no later than twenty (20) days after receiving the written report of any deficiencies in the results of the performance tests.
 - i) The owner or operator may petition the Board for an adjusted visible emission standard pursuant to 35 Ill. Adm. Code 106. Subpart E. In addition to the requirements of 35 Ill. Adm. Code 106. Subpart E, the petition shall include the following information:
 - 1) A description of the business or activity of the petitioner,

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

- including its location and relevant pollution control equipment;
- 2) The quantity and type of materials discharged from the emission unit source or control equipment for which the adjusted standard is requested;
 - 3) A copy of any correspondence between the petitioner and the Agency regarding the performance tests test(s) which form the basis of the adjusted standard request;
 - 4) A copy of the written report submitted to the Agency pursuant to subsection (g) of this Section above;
 - 5) A statement that the performance tests test(s) were conducted in accordance with this Section and the conditions and procedures accepted by the Agency pursuant to Section 212.110 of this Part;
 - 6) A statement regarding the specific limitation requested; and
 - 7) A statement as to whether the Agency has sent notice of deficiencies in the results of the performance test pursuant to subsection (h) of this Section above and a copy of said notice.
- j) In order to qualify for an adjusted standard the owner or operator must justify as follows:
- 1) That the performance tests test(s) were conducted in accordance with USEPA Test Methods 5 and 9, 40 CFR Part 60, Appendix A, incorporated by reference in Section 212.113 of this Part, and the conditions and procedures accepted by the Agency pursuant to Section 212.110 of this Part;
 - 2) That the emission unit source and associated air pollution control equipment were operated and maintained in a manner so as to minimize the opacity of the emissions during the performance tests test(s); and
 - 3) That the proposed adjusted opacity standard was determined in accordance with subsection (f) of this Section.
- k) Nothing in this Section shall prevent any person from initiating or participating in a rulemaking, variance, or permit appeal proceeding before the Board.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 22 1996)

SUBPART D: PARTICULATE MATTER EMISSIONS
FROM INCINERATORS

Section 212.181 Limitations for Incinerators

- a) No person shall cause or allow the emission of particulate matter into the atmosphere from any incinerator burning more than 27.2 Mg/hr (60,000 lbs/hr) of refuse per-hour to exceed 115 mg (0.05 gr/scf) of effluent gases corrected to 12 percent carbon dioxide.
- b) No person shall cause or allow the emission of particulate matter into the atmosphere from any incinerator burning more than 0.907 Mg/hr (2000 lbs/hr) but less than 27.2 Mg/hr (60,000 lbs/hr) of refuse

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

- per-hour to exceed 183 mg/scm (0.08 gr/scf) of effluent gases corrected to 12 percent carbon dioxide.
- c) No person shall cause or allow the emission of particulate matter into the atmosphere from all other existing incinerators for which construction or modification commenced prior to April 14, 1972, to exceed 458 mg/scm (0.2 gr/scf) of effluent gases corrected to 12 percent carbon dioxide.
 - d) No person shall cause or allow the emission of particulate matter into the atmosphere from all other new incinerators for which construction or modification commenced on or after April 14, 1972, to exceed 229 mg/scm (0.1 gr/scf) of effluent gases corrected to 12 percent carbon dioxide.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 22 1996)

Section 212.182 Aqueous Waste Incinerators

Section 212.181(d) of this Subpart shall not apply to aqueous waste incinerators which, when corrected to 50 percent excess air for combined fuel and charge incineration, produce stack gas containing carbon dioxide dry-basis volume concentrations of less than 1.2 percent from the charge alone, if all the following conditions are met:

- a) The emission of particulate matter into the atmosphere from any such new-or-existing incinerator does not exceed 229 mg/scm (0.1 gr/scf), dry basis, when corrected to 50 percent excess air for combined fuel and charge incineration; and
- b) The waste charge to the incinerator does not exceed 907 kg/hr (2000 lbs/hr) per-hour.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 22 1996)

Section 212.183 Certain Wood Waste Incinerators

Exception: Section 212.181(a), (b) and (d) of this Subpart shall not apply to incinerators which burn wood wastes exclusively, if all the following conditions are met:

- a) The emission of particulate matter from such incinerator does not exceed 458 mg (0.2 gr/scf) of effluent gases corrected to 12 percent carbon dioxide; and
- b) The location of such incinerator is not in a restricted area, and is more than 305 m (1000 ft) from residential or other populated areas; and
- c) When it can be affirmatively demonstrated that no economically reasonable alternative method of disposal is 7605

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 22 1996)

POLLUTION CONTROL BOARD
NOTICE OF ADOPTED AMENDMENTS

- specified test operation.
- 2) The incinerator ~~shall burn~~ burns no more than 907 kg/hr kilograms (2000 lbs/hr pounds) of waste per hour.
- 3) The incinerator shall be multi-stage controlled air combustion incinerator having cyclical pulsed stoking hearth.
- b) No person shall cause or allow the emission of particulate matter into the atmosphere from any continuous automatic stoking pathological waste incinerator ~~as defined in this section~~ to exceed 1 gram of emission per 1 kg kilogram of animal pathological waste charge (0.1 lb/100 lb).
- c) The particulate matter emissions produced when burning animal pathological waste using gaseous auxiliary fuel, such as natural gas, shall not exceed the lbs/hr pound-per-hour emission rate equivalent to the maximum concentration rate set forth in Section 212.181(d) of this Subpart, when applied to burning a maximum of 2000 lb of mixed charge animal pathological waste plus solid waste for demonstration of compliance. "Mixed charge" shall contain no more than 25 percent by weight of solid waste other than animal pathological waste.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 1996)

SUBPART E: PARTICULATE MATTER EMISSIONS
FROM FUEL COMBUSTION EMISSION UNITS SOURCES

Section 212.201 Emission Units For Which Construction or Modification Commenced Prior to April 14, 1972, Existing--Sources Using Solid Fuel Exclusively Located in the Chicago Area

No person shall cause or allow the emission of particulate matter into the atmosphere from any existing fuel combustion emission unit for which construction or modification commenced prior to April 14, 1972, source using solid fuel exclusively, located in the Chicago major metropolitan area, to exceed 0.15 kg of particulate matter per MW-hr of actual heat input in any one hour period (0.10 lbs/mmBtu/hr Mbtu/hr) except as provided in Section 212.203 of this Subpart.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 1996)

Section 212.202 Emission Units For Which Construction or Modification Commenced Prior to April 14, 1972, Existing--Sources Using Solid Fuel Exclusively Located Outside the Chicago Area

No person shall cause or allow the emission of particulate matter into the atmosphere from any existing fuel combustion emission unit for which construction or modification commenced prior to April 14, 1972, source using solid fuel exclusively, which is located outside the Chicago area

POLLUTION CONTROL BOARD
NOTICE OF ADOPTED AMENDMENTS

- Section 212.184 Explosive Waste Incinerators
- a) Section 212.181 of this Subpart shall not apply to certain existing small explosive waste incinerators if all the following conditions are met:
- 1) The incinerator burns explosives or explosive contaminated waste exclusively;
- 2) The incinerator burns 227 kg/hr (500 lbs/hr) or less of waste per hour or less;
- 3) All incinerators on the same site operate a total of six (6) hours or less in any day; and
- 4) The incinerator was in existence prior to December 6, 1976 and is located in Williamson County in Section 3, Township 9 South, Range 2 East of the Third Principal Meridian.
- b) No person shall cause or allow the emission of particulate matter into the atmosphere from any such existing small explosive waste incinerator to exceed 7140 mg/kg (50.0 gr/lb) of combined waste and auxiliary fuel burned.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 1996)

Section 212.185 Continuous Automatic Stoking Animal Pathological Waste Incinerators

a) For purposes of this section, the following definitions apply: "Animal pathological waste" means waste composed of whole or parts of animal carcasses and also non-carcass materials such as plastic, paper, wrapping and animal collars; "Noncarcass materials" shall not exceed ten percent by weight of the total weight of the carcass and noncarcass materials combined; "Animal" means any organism other than a human being; "Of the kingdom" means distinguished from plants by certain typical characteristics such as the power of locomotion, fixed structure and limited growth; and "non-photosynthetic metabolism" means continuous automatic stoking means the automatic moving of animal pathological waste during burning by moving the hearth in a pulse-cycle manner when process is designed to provide a continuous burning rate every hour without limitation; and results in emission rates which are similar over any hour of the burning process.

ab) Section 212.181 of this Subpart shall not apply to continuous automatic stoking pathological waste incinerators if all of the following conditions are met:

1) The incinerator shall burn animal pathological waste exclusively, except as otherwise prescribed by the Agency during

POLLUTION CONTROL BOARD

Section 212.203 Existing Controlled Emission Units For Which Construction or Modification Commenced Prior to April 14, 1972, Sources Using Solid Fuel Exclusively

Notwithstanding Sections 212.201 and 212.202 of this Subpart, any existing fuel combustion emission unit for which construction or modification commenced prior to April 14, 1972, source using solid fuel exclusively may, in any one hour period, emit up to, but not exceed 0.31 kg/MW-hr (0.20 lbs/mmbtu~~MBtu~~), if as of April 14, 1972, any one of the following conditions was met:

a) The emission unit source had an hourly emission rate based on

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

original design or equipment performance test conditions, whichever is stricter, which was less than 0.31 kg/MW-hr (0.20 lbs/mmbtu~~MBtu~~) of actual heat input, and the emission control of such emission unit source is not allowed to degrade more than 0.077 kg/MW-hr (0.05 lbs/mmbtu~~MBtu~~) from such original design or acceptance performance test conditions; or

- b) The emission unit source was in full compliance with the terms and conditions of a variance granted by the Pollution Control Board (Board) sufficient to achieve an hourly emission rate less than 0.31 kg/MW-hr (0.20 lbs/mmbtu~~MBtu~~), and construction has commenced on equipment or modifications prescribed under that program; and emission control of such emission unit source is not allowed to degrade more than 0.077 kg/MW-hr (0.05 lbs/mmbtu~~MBtu~~) from original design or equipment performance test conditions, whichever is stricter; or
- c) The emission unit source had an hourly emission rate based on original design or equipment performance test conditions, whichever is stricter, which was less than 0.31 kg/MW-hr (0.20 lbs/mmbtu~~MBtu~~) of actual heat input, and the emission control of such emission unit source is not allowed to degrade more than 0.077 kg/MW-hr (0.05 lbs/mmbtu~~MBtu~~) from that rate demonstrated by the most recent stack test, submitted to and accepted by the Agency prior to April 1, 1985, provided that:

- 1) Owners and operators of emission units sources subject to this subsection shall have applied apply for a new operating permit by January 9, 1987 within--100--days--of--the--effective--date--of--this--section; and

- 2) The application for a new operating permit shall have included include a demonstration that the proposed emission rate, if greater than the emission rate allowed by subsections (a) or (b) of this Section section, will not under any foreseeable operating conditions and potential meteorological conditions cause or contribute to a violation of any applicable primary or secondary ambient air quality standard for particulate matter, or violate any applicable prevention of significant deterioration (PSD) increment, or violate 35 Ill. Adm. Code 201.141.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.204 Emission Units For Which Construction or Modification Commenced On or After April 14, 1972, New-Sources Using Solid Fuel Exclusively

No person shall cause or allow the emission of particulate matter into the atmosphere from any new fuel combustion emission unit for which construction or modification commenced on or after April 14, 1972, source using solid fuel exclusively to exceed 0.15 kg of particulate matter per MW-hr of actual heat input (0.1 lbs/mmbtu~~MBtu~~) in any one hour period unless Section 212.202,

POLLUTION CONTROL BOARD
NOTICE OF ADOPTED AMENDMENTS

212.203, or 212.205 applies.
(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

E = Allowable emission rate;
A = Solid fuel particulate emission standard which is applicable;
B = Constant determined from the table in subsection (c);
S = Actual heat input from solid fuel;
L = Actual heat input from liquid fuel.

bc) The metric and English units to be used in the equation of subsection (a) of this Section are as follows:

Parameter	Metric	English
E	kg/hr	lbs/hr
A	kg/MW-hr	lbs/mmbtu
B	0.155	0.10
S	MW	mmbtu/hr
L	MW	mmbtu/hr

Section 212.208 Aggregation of Emission Units For Which Construction or Modification Commenced Prior to April 14, 1972 Existing Sources

Section 212.207 of this Subpart may be applied to the aggregate of all fuel combustion emission units for which construction or modification commenced prior to April 14, 1972, sources vented to a common stack provided that after January 26, 1972:

a) Ductwork has not been modified so as to interconnect such existing fuel combustion emission units sources;

b) The actual heat input to any such existing fuel combustion emission units source is not increased; and

c) No new fuel combustion emission unit source is added to reduce the degree of control of emissions of particulate matter required by this Subpart.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.209 Village of Winnetka Generating Station (Repealed)

Notwithstanding any other requirements of this Part, if the Village of Winnetka files a petition to establish a site specific particulate standards for its generating station within 60 days of the effective date of the rules adopted under docket R82-17, the Village of Winnetka's generating station shall not emit particulates at a level more than 4.25 lbs/MW-hr until January 17, 1989, or until a final determination is made on that site specific rulemaking, whichever occurs sooner.

POLLUTION CONTROL BOARD
NOTICE OF ADOPTED AMENDMENTS

212.203, or 212.205 applies.

Section 212.205 Existing Coal-fired Industrial Boilers For Which Construction or Modification Commenced Prior to April 14, 1972, Equipped with Flue Gas Desulfurization Systems

Notwithstanding Sections 212.201 through 212.204 of this Subpart, no person shall cause or allow the emission of particulate matter into the atmosphere from existing coal-fired industrial boilers equipped with flue gas desulfurization systems for which construction or modification commenced prior to April 14, 1972, to exceed 0.39 kg of particulate matter per MW-hr of actual heat input in any one-hour period (0.25 lbs/mmbtu). Nothing in this rule shall be construed to prevent compliance with applicable regulations promulgated by the USEPA 40-CFR-51.101 as amended. The provisions of Section III of the Clean Air Act relating to standards of performance for new stationary sources...are applicable in this State and are enforceable under the Air Pollution Control Act (415 ILCS 5/9-1(b)). (11th Rev. Stat., ch. 111-1/27, par. 1-1(b)).

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.206 Emission Units Sources Using Liquid Fuel Exclusively

No person shall cause or allow the emission of particulate matter into the atmosphere in any one hour period to exceed 0.15 kg of particulate matter per MW-hr of actual heat input from any fuel combustion emission unit source using liquid fuel exclusively (0.10 lbs. mmbtu).

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.207 Emission Units Sources Using More Than One Type of Fuel

a) No person, while simultaneously burning more than one type of fuel in a fuel combustion emission unit source, shall cause or allow the emission of particulate matter into the atmosphere in any one hour period in excess of the following equation:

E = AS + BL

b) Symbols in the equation mean the following:

where

Section 212.304 Storage Piles

- a) All storage piles of materials with uncontrolled emissions of fugitive particulate matter in excess of 45.4 Mg per year (50 T/Yr) which are located within a source facility whose potential particulate emissions from all emission units sources exceed 90.8 Mg/Yr per--year (100 T/Yr year) shall be protected by a cover or sprayed with a surfactant solution or water on a regular basis, as needed, or treated by an equivalent method, in accordance with the operating program required by Sections 212.309, 212.310 and 212.312 of this Subpart.

- b) Exception: Subsection (a) of this Section shall not apply to a specific storage pile if the owner or operator of that pile proves to

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

the Agency that fugitive particulate emissions from that pile do not cross the property line either by direct wind action or reentrainment.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.305 Conveyor Loading Operations

All conveyor loading operations to storage piles specified in Section 212.304 of this Subpart shall utilize spray systems, telescopic chutes, stone ladders or other equivalent methods in accordance with the operating program required by Sections 212.309, 212.310 and 212.312 of this Subpart.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.306 Traffic Areas

All normal traffic pattern access areas surrounding storage piles specified in Section 212.304 of this Subpart and all normal traffic pattern roads and parking facilities which are located on mining or manufacturing property shall be paved or treated with water, oils or chemical dust suppressants. All paved areas shall be cleaned on a regular basis. All areas treated with water, oils or chemical dust suppressants shall have the treatment applied on a regular basis, as needed, in accordance with the operating program required by Sections 212.309, 212.310 and 212.312 of this Subpart.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.309 Operating Program

a) The emission units ~~sources~~ described in Sections 212.304 through 212.308 and Section 212.316 of this Subpart shall be operated under the provisions of an operating program, consistent with the requirements set forth in Sections 212.310 and 212.312 of this Subpart, and prepared by the owner or operator and submitted to the Agency for its review. Such operating program shall be designed to significantly reduce fugitive particulate matter emissions.

b) ~~Compliance Date.~~ The amendment to this Section incorporating the applicability of Section 212.316 shall apply by May 11 one-year following its effective date of December 10, 1993, or upon initial start-up, whichever occurs later is earlier.

Section 212.315 Covering for Vehicles

No person shall cause or allow the operation of a vehicle of the second division as defined by 625 ILCS 5/1-217 ~~1117-Rev-Stat-1987-Ch-95-172-par-1-1177-as-revised~~ or a semi-trailer as defined by 625 ILCS 5/1-187 ~~1117-Rev-Stat-1987-Ch-95-172-par-1-187-as-revised~~ without a covering sufficient to prevent the release of particulate matter onto the atmosphere, provided that this rule shall not pertain to automotive exhaust emissions.

(Board Note: Pursuant to Section 10(E) of the Act, Section 212.315 cannot be more strict than Section 15-109.1 of the Vehicle Code [625 ILCS 5/15-109.1].)

(Source: Amended at 20 Ill. Reg. 2605, effective MAY 22 1996)

Section 212.316 Emissions Limitations for Emissions Units Sources in Certain Areas

- Applicability. This Section shall apply to those operations specified in Section 212.302 of this Subpart and that are located in areas defined in Section 212.324(a)(1) of this Part.
- Emission Limitation for Crushing and Screening Operations. No person shall cause or allow fugitive particulate matter emissions generated by the crushing or screening of slag, stone, coke or coal to exceed an opacity of 10 percent ~~10%~~.
- Emission Limitations for Roadways or Parking Areas. No person shall cause or allow fugitive particulate matter emissions from any roadway or parking area to exceed an opacity of 10 percent ~~10%~~, except that the opacity shall not exceed 5 percent ~~5%~~ at quarries with a capacity to produce more than 1 million T/Y ~~tons-per-year~~ of aggregate.
- Emission Limitations for Storage Piles. No person shall cause or allow fugitive particulate matter emissions from any storage pile to exceed an opacity of 10 percent ~~10%~~, to be measured four ft feet from the pile surface.
- Additional Emissions Limitations for the Granite City Vicinity as Defined in Section 212.324(a)(1)(C) of this Part.
 - Emissions Limitations for Roadways or Parking Areas Located at Slag Processing Facilities or Integrated Iron and Steel Manufacturing Plants. No person shall cause or allow fugitive particulate matter emissions from any roadway or parking area located at a slag processing facility or integrated iron and steel manufacturing plant to exceed an opacity of 5 percent ~~5%~~.
 - Emissions Limitations for Marine Terminals.
 - No person shall cause or allow fugitive particulate matter emissions from any loading spouts for truck or railcar to exceed an opacity of 10 percent; and ~~10%~~

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

- No person shall cause or allow fugitive particulate matter emissions generated at barge unloading, dump pits, or conveyor transfer points including, but not limited to, transfer onto and off of a conveyor to exceed an opacity of 5 percent ~~5%~~.
- Emission Limitations for All Other Emission Units Sources. Unless an emission unit ~~a source~~ has been assigned a particulate matter, PM-10, or fugitive particulate matter emissions limitation elsewhere in this Section or in Subparts R or S of this Part, no person shall cause or allow fugitive particulate matter emissions from any emission unit source to exceed an opacity of 20 percent ~~10%~~.
 - Recordkeeping and Reporting
 - The owner or operator of any fugitive particulate matter emission unit source subject to this Section shall keep written records of the application of control measures as may be needed for compliance with the opacity limitations of this Section and shall submit to the Agency an annual report containing a summary of such information.
 - The records required under this subsection shall include at least the following:
 - The name and address of the source plant;
 - The name and address of the owner and/or operator of the source plant;
 - A map or diagram showing the location of all emission units sources controlled, including the location, identification, length, and width of roadways;
 - For each application of water or chemical solution to roadways by truck: the name and location of the roadway controlled, application rate of each truck, frequency of each application, width of each application, identification of each truck used, total quantity of water or chemical used for each application and, for each application of chemical solution, the concentration and identity of the chemical; ~~or~~
 - For ~~for~~ application of physical or chemical control agents: the name of the agent, application rate and frequency, and total quantity of agent, and, if diluted, percent of concentration, used each day; and
 - A log recording incidents when control measures were not used and a statement of explanation.
 - Copies of all records required by this Section shall be submitted to the Agency within ten (10) working days after a written request by the Agency and shall be transmitted to the Agency by a company-designated person with authority to release such records.
 - The records required under this Section shall be kept and maintained for at least three (3) years and shall be available for inspection and copying by Agency representatives during working hours.
 - A quarterly report shall be submitted to the Agency stating the

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

following: the dates any necessary control measures were not implemented, a listing of those control measures, the reasons that the control measures were not implemented, and any corrective actions taken. This information includes, but is not limited to, those dates when controls were not applied based on a belief that application of such control measures would have been unreasonable given prevailing atmospheric conditions, which shall constitute a defense to the requirements of this Section. This report shall be submitted to the Agency thirty (30) calendar days from the end of a quarter. Quarters end March 31, June 30, September 30, and December 31.

- h) Compliance Date. Emission units Sources shall comply with the emissions limitations and recordkeeping and reporting requirements of this Section within one year following the effective date of this Section or by May 11, 1993, or upon initial start-up, whichever occurs later is earlier.

SUBPART I: PARTICULATE MATTER EMISSIONS
FROM PROCESS EMISSION UNITS SOURCES

Section 212.321 New Process Emission Units For Which Construction or Modification Commenced On or After April 14, 1972 Sources

- a) Except as further provided in this Part, no person shall cause or allow the emission of particulate matter into the atmosphere in any one hour period from any new process emission unit source which, either alone or in combination with the emission of particulate matter from all other similar new process emission units for which construction or modification commenced on or after April 14, 1972, sources at a source plant or premises, exceeds the allowable emission rates specified in subsection (c) of this Section and instruction-B.
- b) Interpolated and extrapolated values of the data in subsection (c) of this Section shall be determined by using the equation:

$$E = A(P)(\text{superscript } B)$$

where:

P = Process weight rate; and

E = Allowable emission rate; and,

Section 212.322 Existing Process Emission Units For Which Construction or
Modification Commenced Prior to April 14, 1972 Sources

a) Except as further provided in this part, no person shall cause or
allow the emission of particulate matter into the atmosphere in any
one hour period from any existing process emission unit for which
construction or modification commenced prior to April 14, 1972, source
which, either alone or in combination with the emission of
particulate matter from all other similar new-or-existing process
emission units sources at a source plant or premises, exceeds the
allowable emission rates specified in subsection (c) of this Section
and illustrations-e.

b) Interpolated and extrapolated values of the data in subsection (c) of
this Section shall be determined by using the equation:

$$E = C + A(P)(\text{superscript } B)$$

NOTICE OF ADOPTED AMENDMENTS

MAY 2 1996

Section 212.323 Stock Piles

Sections 212.321 and 212.322 of this Subpart shall not apply to emission units sources, such as stock piles of particulate matter, to which, because of the disperse nature of such emission units sources, such rules cannot reasonably be applied.

(Source: MAY 2 1996 20 Ill. Reg. 7605 - effective MAY 2 1996)

Section 212.324 Process Emission Units Sources in Certain Areas

a) Applicability.

1) This Section shall apply to any process emission unit source located in any of the following areas:

A) That area bounded by lines from Universal Transmencator (UTM) coordinate 428000mE, 4631000mN, east to 435000mE, 4631000mN, south to 435000mE, 4623000mN, west to 428000mE, 4631000mN, north to 428000mE, 4631000mN, in the vicinity of McCook in Cook County, as shown in Illustration D of this Part;

B) That area bounded by lines from Universal Transmencator (UTM) coordinate 445000mE, 4622180mN, east to 456265mE, 4622180mN, south to 456265E, 4609020N, west to 445000mE, 4609020mN, north to 445000mE, 4622180mN, in the vicinity of Lake Calumet in Cook County, as shown in Illustration E of this Part;

C) That area bounded by lines from Universal Transmencator (UTM) coordinate 744000mE, 4290000mN, east to 753000mE, 4290000mN, south to 753000mE, 4283000mN, west to 744000mE, 4283000mN, north to 744000mE, 4290000mN, in the vicinity of Granite City in Madison County, as shown in Illustration F of this Part.

2) This Section shall not alter the applicability of Sections 212.321 and 212.322 of this Subpart Part.

3) The emission limitations of this Section are not applicable to any emission unit source subject to a specific emissions standard or limitation contained in any of the following Subparts of this Part:

A) Subpart N, Food Manufacturing;
B) Subpart Q, Stone, Clay, Glass, and Concrete Manufacturing;
C) Subpart R, Primary and Fabricated Metal Products, and Machinery Manufacture; and
D) Subpart S, Agriculture.

b) General Emission Limitation. Except as otherwise provided in this Section, no person shall cause or allow the emission into the

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

atmosphere, of PM-10 from any process emission unit source to exceed 68.7 mg/scm (0.03 gr/scf) during any one hour period.

c) Alternative Emission Limitation. In lieu of the emission limit of 68.7 mg/scm (0.03 gr/scf) contained in subsection (b) of this Section, no person shall cause or allow the emissions from of the following emission units sources to exceed the corresponding limitations in the following table:

Source	Emission Units	
	Metric	English

1) Shotblasting emissions units <u>sources</u> in the Village of McCook equipped with fabric filters fitted as of June 1, 1991	22.9 mg/scm	0.01 gr/scf
--	-------------	-------------

2) All process emissions units <u>sources</u> at manufacturers of steel wool with soap pads located in the Village of McCook	5% opacity	5% opacity
--	------------	------------

d) Exceptions. The mass emission limits contained in subsections (b) and (c) of this Section shall not apply to those emission units sources with no visible emissions other than fugitive particulate matter; however, if a stack test is performed, this subsection is not a defense to a finding of a violation of the mass emission limits contained in subsections (b) and (c) of this Section.

e) Special Emissions Limitation for Fuel-Burning Process Emission Units sources in the Vicinity of Granite City. No person shall cause or allow emissions of PM-10 into the atmosphere to exceed 12.9 ng/J (0.03 lbs/1000 mmbtu) of heat input from the burning of fuel other than natural gas at any process emission unit sources located in the vicinity of Granite City as defined in subsection (a)(1)(C) of this Section.

f) Maintenance and Repair. For any process emission unit source subject to subsection (a) of this Section, the owner or operator shall maintain and repair all air pollution control equipment in a manner that assures that the emission limits and standards in this Section shall be met at all times. This Section shall not affect the applicability of 35 Ill. Adm. Code Section 201.149. Proper maintenance shall include the following minimum requirements:

1) Visual inspections of air pollution control equipment;
2) Maintenance of an adequate inventory of spare parts; and
3) Expeditious repairs, unless the emission unit source is shutdown.

g) Recordkeeping of Maintenance and Repair.
1) Written records of inventory and documentation of inspections, maintenance, and repairs of all air pollution control equipment

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

- shall be kept in accordance with subsection (f) of this Section.
- 2) The owner or operator shall document any period during which any process emission unit source was in operation when the air pollution control equipment was not in operation or was malfunctioning so as to cause an emissions level in excess of the emissions limitation. These records shall include documentation of causes for pollution control equipment not operating or such malfunction and shall state what corrective actions were taken and what repairs were made.
 - 3) A written record of the inventory of all spare parts not readily available from local suppliers shall be kept and updated.
 - 4) Copies of all records required by this Section shall be submitted to the Agency within ten (10) working days after of a written request by the Agency.
 - 5) The records required under this Section shall be kept and maintained for at least three (3) years and shall be available for inspection and copying by Agency representatives during working hours.
 - 6) Upon written request by the Agency, a report shall be submitted to the Agency for any period specified in the request stating the following: the dates during which any process emissions emission unit source was in operation when the air pollution control equipment was not in operation or was not operating properly, documentation of causes for pollution control equipment not operating or not operating properly, and a statement of what corrective actions were taken and what repairs were made.
 - h) Compliance Date. Emission units sources shall comply with the emissions limitations and recordkeeping and reporting requirements of this Section within one year after the effective date of this Section or by May 11 December 10, 1993, or upon initial start-up, whichever occurs later is earlier.

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

MAY 2 1996

Section 212.362 Emission Units Sources in Certain Areas

- a) Applicability.
 - 1) Subsections (b)(1) through (b)(4) of this Section shall apply to those emission units sources engaged in food manufacturing and located in the Village of Bedford Park west of Archer Avenue and in the area defined in Section 212.324(a)(1)(A) of this Part.
 - 2) Subsection (b)(5) of this Section applies to an instant tea manufacturing plant in Granite City, as defined in Section 212.324(a)(1)(C) of this Part.
- b) Emission Limitation. No person shall cause or allow the emission of PM-10, other than that of fugitive particulate matter, into the atmosphere to exceed the following limits during any one hour period:
 - 1) 22.9 mg/scm (0.01 gr/scf) for dextrose dryers, dextrose melt tank systems, bulk dextrose loading systems, house dry dextrose dust systems, dextrose bagging machine dust systems, dextrose expansion dryer/cooler and packing systems and 2034 dextrose dryer/cooler dust collecting systems;
 - 2) 34.3 mg/scm (0.015 gr/scf) for feed dryers, gluten dryers, germ dryers, and heat recovery scrubbers;
 - 3) 68.7 mg/scm (0.03 gr/scf) for germ cake transport systems, spent flake transport/cooling systems, bleaching clay systems, dust pickup bin systems in Building 26, and pellet cooler systems;
 - 4) 45.8 mg/scm (0.02 gr/scf) for germ transport systems, starch dust collection systems, dicalite systems, starch processing/transport systems, starch dryers, starch transport systems, calcium carbonate storage systems, starch loading systems, corn unloading systems, germ transfer towers, dextrose transport systems, soda ash unloading systems, corn silo systems, filter aid systems, spent flake storage systems, corn cleaning transport systems, feed transport cooling systems, gluten cooling systems, gluten transport systems, feed dust systems, gluten dust systems, pellet dust systems, spent flake transport systems, rail car maintenance system buildings, and dextrose expansion milling and storage systems;
 - 5) 22.9 mg/scm (0.01 gr/scf) for any process emission unit emissions source at an instant tea manufacturing plant in Granite City, except the spray dryer, raw tea storage silo, and instant tea filling machines.
- c) Exceptions. The mass emission limits contained in subsection (b) of this Section shall not apply to those emission units sources with no visible emissions other than fugitive matter; however, if a stack test is performed, this subsection is not a defense to a finding of a violation of the mass emission limits contained in subsection (b) of this Section.
- d) Maintenance, Repair, and Recordkeeping. The requirements of

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

subsections (f) and (g) of Section 212.324(f) and (g) of this Part shall also apply to this Section.

- e) Compliance Date. Emission units Sources shall comply with the emissions limitations and recordkeeping and reporting requirements of this Section within one year after the effective date of this Section or by May 11 December 19, 1993, or upon initial start-up, whichever occurs later is earlier.

(Source: Amended at 20 Ill. Reg. 7605 effective MAY 2 2 1996)

SUBPART O: PETROLEUM REFINING, PETROCHEMICAL
AND CHEMICAL MANUFACTURING

Section 212.381 Catalyst Regenerators of Fluidized Catalytic Converters

Sections 212.321 and 212.322 of this Part shall not apply to catalyst regenerators of fluidized catalytic converters. No person shall cause or allow the emission rate from new and existing catalyst regenerators of fluidized catalytic converters to exceed in any one hour period the rate determined using the following equations:

$$E = 4.10 (P)(0.67) \quad \text{for } P \text{ less than or equal to } 30 \text{ T/hr tons-per-hour.}$$

$$E = (55.0 (P)(0.11)) - 40.0 \quad \text{for } P \text{ greater than } 30 \text{ T/hr tons-per-hour.}$$

where:

E = allowable emission rate in lbs/hr pounds-per-hour, and

P = catalyst recycle rate, including the amount of fresh catalyst added, in T/hr tons-per-hour.

CONCRETE MANUFACTURING

Section 212.421 New Portland Cement Processes For which Construction or Modification Commenced On or After April 14, 1972

No person shall cause or allow the emission of smoke or other particulate matter from any new portland cement process for which construction or modification commenced on or after April 14, 1972, into the atmosphere having an opacity greater than 10 percent.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

MAY 2 2 1996

Section 212.422 Portland Cement Manufacturing Processes

Section 212.321 of this Part shall not apply to the kilns and coolers of portland cement manufacturing processes.

- a) The kilns and clinker coolers of existing portland cement manufacturing processes for which construction or modification commenced prior to April 14, 1972, shall comply with the emission standards and limitations of Section 212.322 of this Part.

- b) The kilns and clinker coolers of new portland cement manufacturing processes for which construction or modification commenced on or after April 14, 1972, shall comply with the following emission standards and limitations:

- 1) No person shall cause or allow the emission of particulate matter into the atmosphere from any such kiln to exceed 0.3 lbs/T pounds-per-ton of feed to the kiln.

- 2) No person shall cause or allow the emission of particulate matter into the atmosphere from any such clinker cooler to exceed 0.1 lbs/T pounds-per-ton of feed to the kiln.

(Source: MAY 2 2 1996 at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.423 Emission Limits for the Portland Cement Manufacturing Plant Located in LaSalle County, South of the Illinois River

- a) Applicability: This Section shall apply to the portland cement manufacturing plant in operation before September 1, 1990 located in LaSalle County, south of the Illinois River. This Section shall not alter the applicability of Sections 212.321 and 212.322 of this Part to portland cement manufacturing processes other than those for which alternate emission limits are specified in subsection (b) of this Section. This Section shall not become effective until April 30, 1992.

- b) Prohibitions

- 1) No person shall cause or allow emissions of PM-10 to exceed the emission limits set forth below for each process:

	PM-10 Emission Limits	
	Rate	Concentration
	kg/hr	mg/scm (gr/scf)
A. Clinker Cooler	4.67 (10.3)	28.147 (0.012)
B. Finish Mill High Efficiency Air Separator	2.68 (5.9)	26.087 (0.011)

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

- 2) ~~No person shall cause or allow emissions of PM-10 including condensible PM-10 to exceed the emission limits set forth below for each process:~~

PM-10 Emission Limits Including Condensible PM-10

	Rate	Concentration
	kg/hr	mg/scm (gr/scf)
A. Raw Mill Roller Mill (RMRM)	6.08 (13.4)	27.5 (0.012)
B. Kiln without RMRM Operating	19.19 (42.3)	91.5 (0.040)
C. Kiln with RMRM	11.43 (25.2)	89.2 (0.039)

- c) No person shall cause or allow any visible emissions from any portland cement manufacturing process emission unit source not listed in subsection (b) of this Section.

- d) ~~Maintenance and Repair~~: The owner or operator of any process emission unit source subject to subsection (b) or (c) of this Section shall maintain and repair all air pollution control equipment in a manner that assures that the applicable emission limits and standards in subsections (b) or (c) of this Section shall be met at all times. Proper maintenance shall include at least the following requirements:

- 1) Visual inspections of air pollution control equipment shall be conducted;
- 2) An adequate inventory of spare parts shall be maintained;
- 3) Prompt and immediate repairs shall be made upon identification of the need; and
- 4) Written records of inventory and documentation of inspections, maintenance, and repairs of all air pollution control equipment shall be kept in accordance with subsection (e) of this Section.

- e) Recordkeeping of Maintenance and Repair.

- 1) Written records shall be kept documenting inspections, maintenance, and repairs of all air pollution control equipment. All such records required under this Section shall be kept and maintained for at least three (3) years, shall be available for inspection by the Agency, and, upon request, shall be copied and furnished to Agency representatives during working hours.

- 2) The owner or operator shall document any period during which any process emission unit source was in operation when the air pollution control equipment was not in operation or was not operating properly. These records shall include documentation of causes for pollution control equipment not operating or not operating properly, and shall state what corrective actions were taken and what repairs were made. In any quarter during which such a malfunction should occur, the owner or operator shall mail

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

- one copy of the documentation to the Agency.
- 3) A written record of the inventory of all spare parts not readily available from local suppliers shall be kept and updated.
 - 4) Upon written request by the Agency, the owner or operator shall submit any information required pursuant to this Subpart 0, for any period of time specified in the request. Such information shall be submitted within ten (10) working days from the date on which the request is received.

- f) Testing to determine compliance with the emission limits specified for PM-10, condensible PM-10, and detection of visible emissions shall be in accordance with the measurement methods specified in Sections 212.107 and 212.108(a) and (b) of this Part ~~Section 212.107 and 212.108(a) and (b)~~. Ammonium chloride shall be excluded from the measurement of condensible PM-10.

7605 effective
MAY 2 2 1996

Section 212.424 Fugitive Particulate Matter Control for the Portland Cement Manufacturing Plant and Associated Quarry Operations Located in LaSalle County, South of the Illinois River.

- a) Applicability. This Section shall apply to the portland cement manufacturing plant in operation before September 1, 1990, and associated quarry operations located in LaSalle County, south of the Illinois River. Associated quarry operations are those operations involving the removal and disposal of overburden, and the extraction, crushing, sizing, and transport of limestone and shale for usage at the portland cement manufacturing plant. This Section shall not become effective until April 30, 1992.
- b) Applicability of Subpart K of this Part. This Section shall not alter the applicability of Subpart K: Fugitive Particulate Matter.
- c) Fugitive Particulate Matter Control Measures For Roadways at the Plant.

- 1) For the unpaved access roadway to the Illinois Central Silos Loadout, the owner or operator shall spray a 30 percent solution of calcium chloride once every 16 weeks at an application rate of at least 1.58 L/m(2) ~~liters-per-square-meter~~ (0.35 gal/yd(2) ~~gallons-per-square-yard~~) followed by weekly application of water at a rate of at least 1.58 L/m(2) ~~liters-per-square-meter~~ (0.35 gal/yd(2) ~~gallons-per-square-yard~~). This subsection shall not apply after the roadway is paved.

- 2) The owner or operator of the portland cement manufacturing plant shall keep written records in accordance with subsection (e) of this Section.

- d) Fugitive Particulate Matter Control Measures for Associated Quarry Operations.

- 1) For the primary crusher, the primary screen, the #3 conveyor from

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

the primary screen to the surge pile, and the surge pile feeders to the #4 conveyor, the owner or operator shall spray a chemical foam spray of at least 1 percent solution of chemical foaming agent in water continuously during operations at a rate of at least 1.25 L/Mg liters-per-megagram (0.30 gal/T gallons-per-ton) of rock processed.

- 2) The owner or operator shall water all roadways traveled by trucks to and from the primary crusher in the process of transporting raw limestone and shale to the crusher at an application rate of at least 0.50 L/m(2) liters-per-square-meter (0.10 gal/yd(2) gallons-per-square-yard) applied once every eight hours of operation except under conditions specified in subsection (d)(3) of this Section below. Watering shall begin within one hour of commencement of truck traffic each day.

- 3) Subsection (d)(2) of this Section above shall be followed at all times except under the following circumstances:

- A) Precipitation is occurring such that there are no visible emissions or if precipitation occurred during the previous 2 hours such that there are no visible emissions;
- B) If the ambient temperature is less than or equal to 0° C (32° F); or
- C) If ice or snow build-up has occurred on roadways such that there are no visible emissions.
- 4) The owner or operator of the associated quarry operations shall keep written records in accordance with subsection (e) of this Section.

e) Recordkeeping and Reporting

- 1) The owner or operator of any portland cement manufacturing plant and/or associated quarry operations subject to this Section shall keep written daily records relating to the application of each of the fugitive particulate matter control measures required by this Section.

- 2) The records required under this Section shall include at least the following:

- A) The name and address of the plant;
- B) The name and address of the owner or operator of the plant and associated quarry operations;
- C) A map or diagram showing the location of all fugitive particulate matter emission units sources controlled including the location, identification, length, and width of roadways;
- D) For each application of water or calcium chloride solution, the name and location of the roadway controlled, the water capacity of each truck, application rate of each truck, frequency of each application, width of each application, start and stop time of each application, identification of each water truck used, total quantity of water or calcium chloride used for each application,

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

including the concentration of calcium chloride used for each application;

- E) For application of chemical foam spray solution, the application rate and frequency of application, name of foaming agent, and total quantity of solution used each day;

- F) Name and designation of the person applying control measures; and

- G) A log recording all failures to use control measures required by this Section with a statement explaining the reasons for each failure and, in the case of a failure to comply with the roadway watering requirements of subsection (d)(2) of this Section, a record showing that one of the circumstances for exceptions listed in subsection (d)(3) of this Section existed during the period of the failure. Such record shall include, for example, the periods of time when the measured temperature was less than or equal to 0° C (32° F).

- 3) Copies of all records required by this Section shall be submitted to the Agency within ten (10) working days after of a written request by the Agency.

- 4) The records required under this Section shall be kept and maintained for at least three (3) years and shall be available for inspection and copying by Agency representatives during working hours.

- 5) A quarterly report shall be submitted to the Agency stating the following: the dates required control measures were not implemented, the required control measures, the reasons that the control measures were not implemented, and the corrective actions taken. This report shall include those times when subsection (d) of this Section is involved. This report shall be submitted to the Agency thirty (30) calendar days from the end of a quarter. Quarters end March 31, June 30, September 30, and December 31.

(Source: Amended at 20 Ill. Reg. 7605, effective

MAY 20 1995)

Section 212.425 Emission Units Sources in Certain Areas

- a) ~~Applicability~~ This Section shall apply to those emission units sources located in those areas defined in Section 212.324(a)(1) of this Part.

- b) ~~Emission Limitation~~ No person shall cause or allow the emission of PM-10, other than that of fugitive particulate matter, into the atmosphere to exceed the following limits during any one hour period:
- 1) 57.2 mg/scm (0.025 gr/scf) for coater and cooling loop ventilator at a roofing asphalt manufacturing plant located in the Village of Summit;

- 2) 34.3 mg/scm (0.015 gr/scf) for mineral filler handling emission

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

units sources at a roofing asphalt manufacturing plant located in the Village of Summit;

3) 0.03 kg/Mg (0.06 lb/T) of asphalt mixed for asphalt mixer at a roofing asphalt manufacturing plant located in the Village of Summit;

4) 91.6 mg/scm (0.04 gr/scf) for roofing asphalt blowing stills, except stills Nos. 1 and 2, at a roofing asphalt manufacturing plant located in the Village of Summit;

5) 45.8 mg/scm (0.02 gr/scf) for kilns in the lime manufacturing industry;

6) 22.9 mg/scm (0.01 gr/scf) for all other process emission units sources in the lime manufacturing industry;

7) 0.325 kg/Mg (0.65 lb/T) of glass produced for all glass melting furnaces.

c) Exceptions The mass emission limits contained in subsection (b) of this Section shall not apply to those emission units sources with no visible emissions other than fugitive particulate matter; however, if a stack test is performed, this subsection is not a defense to a finding of a violation of the mass emission limits contained in subsection (b) of this Section.

d) Maintenance, Repair, and Recordkeeping The requirements of subsections (f) and (g) of Section 212.324(f) and (g) of this Part shall also apply to this Section.

e) Compliance Dates Emission units sources shall comply with the emissions limitations and recordkeeping and reporting requirements of this Section within one year of the effective date of this Section or by May 11 December 10, 1993, or upon initial start-up, whichever occurs later is earlier.

SUBPART B: PRIMARY AND FABRICATED METAL PRODUCTS
AND MACHINERY MANUFACTURE

Section 212.441 Steel Manufacturing Processes

Except where noted, Sections 212.321 and 212.322 of this Part shall not apply to the steel manufacturing processes subject to Sections 212.442 through 212.452 of this Subpart.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 1996)

Section 212.443 Coke Plants

- a) Subpart B of this Part shall not apply to coke plants.
b) Charging.

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

1) Uncaptured Emissions:

A) No person shall cause or allow the emission of visible particulate matter from any coke oven charging operation, from the introduction of coal into the first charge port, as indicated by the first mechanical movement of the coal feeding mechanism on the larry car, to the replacement of the final charge port lid for more than a total of 125 seconds over 5 consecutive charges; provided however that 1 charge out of any 20 consecutive charges may be deemed an unaccountable charge at the option of the operator.

B) Compliance with the limitation set forth in subsection (b)(1)(A) of this Section above shall be determined in the following manner:

i) Observation of charging emissions shall be made from any point or points on the top side of a coke oven battery from which a qualified observer can obtain an unobstructed view of the charging operation.

ii) The qualified observer shall time the visible emissions with a stopwatch while observing the charging operation. Only emissions from the charge port and any part of the larry car shall be timed. The observation shall commence as soon as coal is introduced into the first charge port as indicated by the first mechanical movement of the coal feeding mechanism on the larry car and shall terminate when the last charge port lid has been replaced. Simultaneous emissions from more than one emission point shall be timed and recorded as one emission and shall not be added individually to the total time.

iii) The qualified observer shall determine and record the total number of seconds that charging emissions are visible during the charging of coal to the coke oven. For each charge observed, the qualified observer shall record the total number of seconds of visible emissions, the clock time for the initiation and completion of the charging operation and the battery identification and oven number.

v) The qualified observer shall not record any emissions observed after all charging port lids have been firmly seated following removal of the larry car, such as emissions occurring when a lid has been temporarily removed to permit spilled coal to be swept into the oven.

vi) In the event that observations from a charge are interrupted, the data from the charge shall be invalidated and the qualified observer shall note on his observation sheet the reason for invalidating the data. The qualified observer shall then resume

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

observation of the next consecutive charge or charges and continue until a set of five charges has been recorded. Charges immediately preceding and following interrupted observations shall be considered consecutive.

2) Emissions from Control Equipment

A) Emissions of particulate matter from control equipment used to capture emissions during charging shall not exceed 0.046 g/dscm (0.020 gr/dscf). Compliance shall be determined in accordance with the procedures set forth in 40 CFR part 60, Appendix A, Methods 1 through 5 incorporated by reference in Section 212.113 of this Part. The provisions of Section 111 of the Clean Air Act...relating to standards of performance for new stationary sources...are applicable in this State and are enforceable under the Environmental Protection Act [415 ILCS 5/9.1(b)]. ~~1997-CH-111-112-Par-1009-1(b)(1)-111-Rev-Stat-1997-CH-111-112-Par-1009-1(b)(1)~~

B) The opacity of emissions from control equipment shall not exceed an average of 20 percent, averaging the total number of readings taken. Opacity readings shall be taken at 15-second intervals from the introduction of coal into the first charge port as indicated by the first mechanical movement of the coal feeding mechanism on the larry car to the replacement of the final charge port lid. Compliance, except for the number of readings required, shall be determined in accordance with 40 CFR part 60, Appendix A, Method 9, incorporated by reference in Section 212.113 of this Part. The provisions of Section 111 of the Clean Air Act...relating to standards of performance for new stationary sources...are applicable in this State and are enforceable under the Environmental Protection Act [415 ILCS 5/9.1(b)]. ~~Section 9-1(b)-of-the-Act- [415 ILCS 5/9.1(b)].~~

C) Opacity readings of emissions from control equipment shall be taken concurrently with observations of fugitive particulate matter. Two qualified observers shall be required.

3) Qualified observers referenced in subsection (b) of this Section shall be certified pursuant to 40 CFR part 60, Appendix A, Method 9, incorporated by reference in Section 212.113 of this Part. The provisions of Section 111 of the Clean Air Act...relating to standards of performance for new stationary sources ... are applicable in this State and are enforceable under the Environmental Protection Act [415 ILCS 5/9.1(b)]. ~~Section 9-1(b)-of-the-Act-~~

c) Pushing:

1) Uncaptured Emissions:

A) Emissions of uncaptured ~~fugitive~~ particulate matter from pushing operations shall not exceed an average of 20 percent

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

* Opacity for 4 consecutive pushes considering the highest average of six consecutive readings in each push. Opacity readings shall be taken at 15-second intervals, beginning from the time the coke falls into the receiving car or is first visible as it emerges from the coke guide whichever occurs earlier, until the receiving car enters the quench tower or quenching device. For a push of less than 90 seconds duration, the actual number of 15-second readings shall be averaged.

B) Opacity readings shall be taken by a qualified observer located in a position where the oven being pushed, the coke receiving car and the path to the quench tower are visible. The opacity shall be read as the emissions rise and clear the top of the coke battery gas mains. The qualified observer shall record opacity readings of emissions originating at the receiving car and associated equipment and the coke oven, including the standpipe on the coke side of the oven being pushed. Opacity readings shall be taken in accordance with the procedures set forth in 40 CFR part 60, Appendix A, Method 9, incorporated by reference in Section 212.113 of this Part, except that Section 2.5 for data reduction shall not be used. The qualified observer referenced in this subsection shall be certified pursuant to 40 CFR part 60, Appendix A, Method 9, incorporated by reference in Section 212.113. The provisions of Section 111 of the Clean Air Act...relating to standards of performance for new stationary sources...are applicable in this State and are enforceable under the Environmental Protection Act [415 ILCS 5/9.1(b)]. ~~Section 9-1-(b)-~~

2) Emissions from Control Equipment

A) The particulate emissions from control equipment used to control emissions during pushing operations shall not exceed 0.040 pounds per ton of coke pushed. Compliance shall be determined in accordance with the procedures set forth in 40 CFR part 60, Appendix A, Methods 1-5, incorporated by reference in Section 212.113 of this Part. The provisions of Section 111 of the Clean Air Act...relating to standards of performance for new stationary sources...are applicable in this State and are enforceable under the Environmental Protection Act [415 ILCS 5/9.1(b)]. ~~Section 9-1-(b)-of-the-Act.~~ Compliance shall be based on an arithmetic average of three runs (stack tests) and the calculations shall be based on the duration of a push as defined in subsection (c)(1)(A) of this Section.

B) The opacity of emissions from control equipment used to control emissions during pushing operations shall not exceed 20%. For a push of less than six minutes duration, the actual number of 15-second readings taken shall be averaged.

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

Compliance shall be determined in accordance with 40 CFR part 60, Appendix A, Method 9, incorporated by reference in Section 212.113 of this Part. The provisions of Section 111 of the Clean Air Act ... relating to standards of performance for new stationary sources ... are applicable in this State and are enforceable under the Environmental Protection Act [415 ILCS 5/9.1(b)]. Section 2.5 of 40 CFR part 60, Appendix A, Method 9, incorporated by reference in Section 212.113 of this Part, for data reduction shall not be used for pushes of less than six minutes duration.

d) Coke Oven Doors.[†]

1) No person shall cause or allow visible emissions from more than 10 percent % of all coke oven doors at any time. Compliance shall be determined by a one pass observation of all coke oven doors on any one battery.

2) No person shall cause or allow the operation of a coke oven unless there is on the plant premises at all times an adequate inventory of spare coke oven doors and seals and unless there is a readily available coke oven door repair facility.

e) Coke Oven Lids.[†] No person shall cause or allow visible emission from more than 5 percent % of all coke oven lids at any time. Compliance shall be determined by a one pass observation of all coke oven lids.

f) Coke Oven Offtake Piping.[†] No person shall cause or allow visible emissions from more than 10 percent % of all coke oven offtake piping at any time. Compliance shall be determined by a one pass observation of all coke oven offtake piping.

g) Coke Oven Combustion Stack.[†]

1) No person shall cause or allow the emission of particulate matter from a coke oven combustion stack to exceed 110 mg/dscm (0.05 gr/dscf); and[†]

2) No person shall cause or allow the emission of particulate matter from a coke oven combustion stack to exceed 30% opacity. Compliance shall be determined in accordance with 40 CFR part 60, Appendix A, Method 9, incorporated by reference in Section 212.113 of this Part. However, the opacity limit shall not apply to a coke oven combustion stack when a leak between any coke oven and the oven's vertical or crossover flues is being repaired, after pushing coke from the oven is completed, but before resumption of charging. The exemption from the opacity limit shall not exceed three (3) hours per oven repaired. The owner of the oven shall keep written records identifying the oven repaired, and the date, time, and duration of all repair periods. These records shall be subject to the requirements of Section 212.324(g)(4) and (g)(5) of this Part.

h) Quenching.

1) All coke oven quench towers shall be equipped with grit

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

arrestors or equipment of comparable effectiveness. Baffles shall cover 95 percent % or more of the cross sectional area of the exhaust vent or stack and must be maintained. Quench water shall not include untreated coke by-product plant effluent. All water placed on the coke being quenched shall be quench water.

2) Total dissolved solids concentrations in the quench water shall not exceed a weekly average of 1200 mg/L ^{mg/L}.

3) The quench water shall be sampled for total dissolved solids concentrations in accordance with the methods specified in Standard Methods for the Examination of Water and Wastewater, Section 209C, "Total Filtrable Residue Dried at 103-105°C," 15th Edition, 1980, incorporated by reference in Section 212.113 of this Part. Analyses shall be performed on grab samples of the quench water as applied to the coke. Samples shall be collected a minimum of five days per week per quench tower and analyzed to report a weekly concentration. The samples for each week shall be analyzed either:

i) Separately separately, with the average of the individual daily concentrations determined; or

ii) As ~~as~~ one composite sample, with equal volumes of the individual daily samples combined to form the composite sample.

4) The records required under this subsection shall be kept and maintained for at least three (3) years and upon prior notice shall be available for inspection and copying by Agency representatives during work hours.

i) Work Rules: No person shall cause or allow the operation of a by-product coke plant except in accordance with operating and maintenance work rules approved by the Agency.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 22 1996)

Section 212.444 Sinter Processes

Emissions of particulate matter from sinter processes shall be controlled as follows:

a) Breaker Box.[†] No person shall cause or allow the emission of particulate matter into the atmosphere from the breaker stack of any sinter process to exceed the allowable emission rate specified by Section 212.321 of this Part.

b) Main Windbox.[†] No person shall cause or allow the emission of particulate matter into the atmosphere from the main windbox of any existing sinter process to exceed 1.2 times the allowable emission rate specified by Section 212.321 of this Part.

c) Balling Mill Drum, Mixing Drum, Pug Mill and Cooler.[†] No person shall cause or allow the emission of visible particulate matter into the atmosphere from any balling mill drum, mixing drum, pug mill

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

or cooler to exceed 30 percent opacity.

- d) Hot and Cold Screens.†
- 1) Particulate matter emissions from all hot and cold screens shall be controlled by air pollution control equipment or an equivalent dust suppression system. Emissions from said air pollution control equipment shall not exceed 69 mg/dscm (0.03 gr/dscf).
 - 2) If ~~provided, however, that--if~~ the owner or operator can establish that the particulate matter emissions from the hot screens and cold screens do not exceed the aggregate of the allowable emissions as specified by Section 212.321 of this Part ~~for new--emission-sources~~ or Section 212.322 of this Part ~~for existing--emission-sources~~, whichever is applicable, then subsection (d)(1) of this Section ~~above~~ shall not apply.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 22 1996)

Section 212.445 Blast Furnace Cast Houses

a) Uncaptured Emissions.

- 1) Emissions of ~~uncaptured~~ ~~fugitive~~ particulate matter from any opening in a blast furnace cast house shall not exceed 20 percent opacity on a six (6) - minute rolling average basis beginning from initiation of the opening of the tap hole up to the point where the iron and slag stops flowing in the trough.

- 2) Opacity readings shall be taken in accordance with the observation procedures set out in 40 CFR Part ~~Part~~ 60, Appendix A, Method 9, ~~†199†~~ incorporated by reference in Section 212.113 of this Part.

b) Emissions from Control Equipment

- 1) Particulate matter emissions from control equipment used to collect any of the emissions from the tap hole, trough, iron or slag runners or iron or slag spouts shall not exceed 0.023 g/dscm (0.010 gr/dscf). Compliance shall be determined in accordance with the procedures set out in 40 CFR ~~part~~ 60, Appendix A, Methods 1 through - 5 ~~†199†~~, incorporated by reference in Section 212.113 of this Part, and shall be based on the arithmetic average of three runs. Calculations shall be based on the duration of a cast defined in subsection (a)(1) of this Section ~~above~~.

- 2) The opacity of emissions from control equipment used to collect any of the particulate matter emissions from the tap hole, trough, iron or slag runners or iron or slag spouts shall not exceed 10 percent ~~†~~ on a six (6) - minute rolling average basis. Opacity readings shall be taken in accordance with the observation procedures set out in 40 CFR ~~part~~ ~~Part~~ 60, Appendix A, Method 9, ~~†199†~~ incorporated by reference in Section 212.113

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

of this Part.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 22 1996)

Section 212.446 Basic Oxygen Furnaces

Emissions of particulate matter from basic oxygen processes shall be controlled as follows:

- a) Charging, Refining and Tapping. Particulate matter emissions from all basic oxygen furnaces (BOF) shall be collected and ducted to pollution control equipment. Unless subsection (c) of this Section applies, emissions ~~Emissions~~ from basic oxygen furnace operations during the entire cycle (operations from the beginning of the charging process through the end of the tapping process) shall not exceed the allowable emission rate specified by Section 212.321 ~~for new--emission-sources~~ or Section 212.322 of this Part ~~for existing--emission-sources~~, whichever is applicable. For purposes of computing the process weight rate for this subsection, nongaseous material charged to the furnace and process oxygen shall be included. No material shall be included more than once.

- b) Hot Metal Transfer, Hot Metal Desulfurization and Ladle Lancing.†

- 1) Particulate matter emissions from hot metal transfers to a mixer or ladle, hot metal desulfurization operations and ladle lancing shall be collected and ducted to pollution control equipment, and emissions from the pollution control equipment shall not exceed 69 mg/dscm (0.03 gr/dscf).

- 2) If ~~provided, however, that--if~~ the owner or operator can establish that the total particulate matter emissions from hot metal transfers, hot metal desulfurization operations and ladle lancing operations combined do not exceed the allowable emissions as specified by Section 212.321 ~~for new--emission-sources~~ or Section 212.322 ~~for existing--emission-sources~~, whichever is applicable, where the process weight rate (P) is the hot metal charged to the BOF vessel, then subsection (b)(1) above shall not apply.

- c) No person shall cause or allow uncaptured emissions from any opening in the building housing the BOF shop to exceed an opacity of 20 percent at integrated iron and steel plants in the vicinity of Granite City, as described in Section 212.324(a)(1)(C) of this Part. Compliance with this subsection shall be determined in accordance with 40 CFR part 60, Appendix A, Method 9, incorporated by reference in Section 212.113 of this Part, except that compliance shall be determined by averaging any 12 consecutive observations taken at 15 second intervals.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 22 1996)

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

Section 212.448 Electric Arc Furnaces

The total particulate emissions from meltdown and refining, charging, tapping, slagging, electrode port leakage and ladle lancing shall not exceed the allowable emission rate specified by Section 212.321 or 212.322 of this Part, whichever is applicable.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.449 Argon-Oxygen Decarburization Vessels

The total particulate matter emissions from all charging, refining, alloy addition and tapping operations shall not exceed the allowable emission rate specified by Section 212.321 for new emission sources or Section 212.322 of this Part for existing emission sources, whichever is applicable.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.452 Measurement Methods

Particulate matter emissions from emission units sources subject to Sections 212.441 through 212.451 of this Subpart shall be determined in accordance with procedures published in 40 CFR part 60, Appendix A, Methods 1 through 5, front one-half of the sampling train, incorporated by reference in Section 212.113 of this Part. 42-Ped-Reg--41754-et-seg--(August-18-1977) Visible emission evaluation for determining compliance shall be conducted in accordance with procedures published in 40 CFR part 60, Appendix A, Method 9, incorporated by reference in Section 212.113 of this Part. 42-Ped-Reg--41754-et-seg--(August-18-1977)

Section 212.455 Highlines on Steel Mills

Section 212.308 of this Part shall not apply to highlines at steel mills.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.456 Certain Small Foundries

Sections 212.321 and 212.322 of this Part shall not apply to foundry cupolas if all the following conditions are met:

- The cupola was in existence prior to April 15, 1967; and
- The cupola process weight rate is less than or equal to 20,000

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

lbs/hr; and

c) The cupola as of April 14, 1972, either:

- Is in compliance with the following allowable emissions from small foundries covered by this Section:

Process Weight Rate lbs/hr	Allowable Emission Rate lbs/hr
1,000	3.05
2,000	4.70
3,000	6.35
4,000	8.00
5,000	9.58
6,000	11.30
7,000	12.90
8,000	14.30
9,000	15.50
10,000	16.65
12,000	18.70
16,000	21.60
18,000	23.40
20,000	25.10

(Board Note: For process weight rates not listed, straight line interpolation between two consecutive process weight rates shall be used to determine allowable emission rates.) subsection (c)(3); or

- Is in compliance with the terms and conditions of a variance granted by the Pollution Control Board (Board) and construction has commenced on equipment or modifications sufficient to achieve compliance with subsection (c)(13) of this Section.

3) Allowable emissions from small foundries covered by Section 212.456:

Process-Weight-Rate Pounds-Per-Hour	Allowable-Emission Rate Pounds-Per-Hour
17000	3.05
27000	4.70
37000	6.35
47000	8.00
57000	9.58
67000	11.30
77000	12.90
87000	14.30
107000	15.50
127000	16.65
167000	18.70
167000	21.60

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

2-000 9-40
3-000 12-70
4-000 16-00
5-000 19-16

(Board Note: The average emission rate is computed by dividing the sum of the emissions during operation by the number of hours of operation excluding any time during which the equipment is idler. For process weight rates not listed, straight line interpolation between two consecutive process weight rates shall be used to determine allowable average emission rates.)

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 22 1996)

Section 212.458 Emission Units Sources in Certain Areas

- a) Applicability. This Section shall apply to those emission units sources located in those areas defined in Section 212.324(a)(1) of this Part.
- b) Emission Limitation. No person shall cause or allow emissions of PM-10, other than that of fugitive particulate matter, into the atmosphere to exceed the following limits during any one hour period:
 - 1) 15.9 ng/J (0.037 lbs/mmbtu ~~per mmbtu~~) of heat input from any fuel combustion emission unit source located at the steel plant between 106th and 111th Streets in City of Chicago;
 - 2) 22.9 mg/scm (0.01 gr/scf) for the basic oxygen furnace additive systems in the Village of Riverdale;
 - 3) 4.3 ng/J (0.01 lbs/ ~~bsr~~ ~~per mmbtu~~) of heat input from the burning of fuel in the soaking pits in the Village of Riverdale;
 - 4) 64.08 mg/scm (0.028 gr/scf) from the electrostatic precipitator discharge of the basic oxygen process in the Village of Riverdale;
 - 5) 45.8 mg/scm (0.02 gr/scf) from the pickling process at a steel plant in the Village of Riverdale;
 - 6) 5 percent opacity for coal handling systems equipped with fabric filters ~~filters~~ at a steel plant located in the City of Chicago;
 - 7) 22.9 mg/scm (0.01 gr/scf) from any process emission unit emissions source located at integrated iron and steel plants in the vicinity of Granite City, as defined in Section 212.324(a)(1)(C) of this Part, except as otherwise provided in this Section or in Sections 212.443 and 212.446 of this Subpart;
 - 8) 5 percent opacity for continuous caster spray chambers or continuous casting operations at steel plants in the vicinity of Granite City, as defined in Section 212.324(a)(1)(C) of this Subpart;
 - 9) 32.25 ng/J (0.075 lbs/ ~~per mmbtu~~) of heat input from the burning of coke oven gas at all emission units sources, other than coke oven

POLLUTION CONTROL BOARD

10-000 23-40
20-000 25-10

(Board Note: For process weight rates not listed, straight line interpolation between two consecutive process weight rates shall be used to determine allowable emission rates.)

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 22 1996)

Section 212.457 Certain Small Iron-Melting Air Furnaces

Section 212.322 of this Part shall not apply to iron-melting air furnaces if all the following conditions are met:

- a) The air furnace was in existence prior to April 15, 1967, and is located in Hoopston, Vermilion County, Illinois; and
- b) The air furnace process weight rate is less than or equal to 5,000 lbs lb/hr; and
- c) The air furnace as of November 23, 1977, either:
 - 1) Is in compliance with the following allowable emissions from small iron-melting air furnaces covered by this Section:

Process Weight Rate lbs/hr	Allowable Average Emission Rate lbs/hr
1,000	6.10
2,000	9.40
3,000	12.70
4,000	16.00
5,000	19.16

(Board Note: The average emission rate is computed by dividing the sum of the emissions during operation by the number of hours of operation, excluding any time during which the equipment is idle. For process weight rates not listed, straight line interpolation between two consecutive process weight rates shall be used to determine allowable average emission rates.) subsection (c)(3); or

2) Is in compliance with the terms and conditions of a variance granted by the Board; and construction has commenced on equipment or modifications sufficient to achieve compliance with subsection (c)(19) of this Section.

3) Allowable emissions from small iron-melting air furnaces covered by Section 212.457:

Process Weight Rate Pounds-Per-Hour	Allowable Average Emission Rate Pounds-Per-Hour
10000	6-10

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

- combustion stacks, at steel plants in the vicinity of Granite City, as defined in Section 212.324(a)(1)(C) of this Subpart;
- 10) 38.7 ng/J (0.09 lbs/lb-permbtu) of heat input from the slab furnaces at steel plants in the vicinity of Granite City, as defined in Section 212.324(a)(1)(C) of this Subpart;
- 11) 22.9 mg/scm (0.01 gr/scf) for all process emission units ~~emissions--sources~~ at secondary lead processing plant located in Granite City, except the salt flux crusher;
- 12) 22.9 mg/scm (0.01 gr/scf) for any melting furnace at a secondary aluminum smelting and refining plant in the vicinity of Granite City, as defined in Section 212.324(a)(1)(C) of this Part;
- 13) 45.8 mg/scm (0.02 gr/scf) from No. 6 mill brusher, and metal chip handling system at a secondary aluminum smelting and refining plant located in the vicinity of Granite City, as defined in Section 212.324(a)(1)(C) of this Part;
- 14) 0.05 kg/Mg (0.01 lb/T) of sand processed from molding sand forming systems at a steel foundry plant located in Granite City;
- 15) 0.01 kg/Mg (0.02 lbs/T) of sand processed from recycle sand shakeouts at a steel foundry plant located in Granite City;
- 16) At a steel foundry plant located in Granite City:
- A) 20 percent opacity for all emission units; and
- B) 22.9 mg/scm (0.01 gr/scf) for all ~~other~~ process emission units ~~emissions--sources--at-steel-foundry-plant-in-Granite City~~, except the sand dryer, sand cooler, chill tumbler, paint booth, chromite reclamation ~~rectamatin--and~~, core baking ovens, electric arc shop roof ventilators, and emission units listed in subsections (b)(14) and (b)(15) of this Section;
- 17) 41.2 mg/scm (0.018 gr/scf) for cold rolling mill emission units ~~emissions--sources~~ at a metal finishing plant located in the Village of McCook;
- 18) 2.15 ng/J (0.005 lbs/mmBtu) of heat input from the burning of fuel in any process emission unit ~~source~~ at a secondary aluminum smelting and refining plant and/or aluminum finishing plant;
- 19) 22.9 mg/scm (0.01 gr/scf) from gross pad, gross cooling, and gross mixing units ~~sources~~ at a secondary aluminum smelting and refining plant and/or aluminum finishing plant;
- 20) 12.9 ng/J (0.03 lbs/mmBtu) of heat input from any fuel combustion emission unit ~~source~~ that heats air for space heating purposes at a secondary aluminum smelting and refining plant located in the vicinity of Granite City, as defined in Section 212.324(a)(1)(C) of this Part;
- 21) 68.7 mg/scm (0.03 gr/scf) for any holding furnace at a secondary aluminum smelting and refining plant in the vicinity of Granite City, as defined in Section 212.324(a)(1)(C) of this Part;
- 22) 2.15 ng/J (0.005 lb/lb-permbtu) of heat input from the steel works boilers located at the steel making facilities at steel plant in the vicinity of Granite City, as defined in Section

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

- 212.324(a)(1)(C);
- 23) 27.24 ~~gr~~ kg/hr (60 ~~60-5~~ lbs/hr) and 0.1125 kg/Mg (.225 lbs/T) of total steel in process, whichever limit is more stringent for the total of all basic oxygen furnace processes described in Section 212.446(a) of this Subpart and measured at the BOF stack located at steel plant in the vicinity of Granite City, as defined in Section 212.324(a)(1)(C) of this Part;
- 24) North and south melting ~~South~~ furnaces at a secondary aluminum smelting and refining plant located in the vicinity of Granite City, as defined in Section 212.324(a)(1)(C) of this Part, cannot be operated simultaneously;
- 25) Magnesium pot furnaces at a secondary aluminum smelting and refining plant located in the vicinity of Granite City, as defined in Section 212.324(a)(1)(C) of this Part, can be operated ~~no more than two lines only-one-time at a time;~~
- 26) 2.15 ng/J (0.005 lbs/mmBtu) of heat input from any fuel combustion emission unit ~~source~~ at a secondary aluminum smelting and refining plant and/or aluminum finishing plant except as provided in subsection (b)(20) of this Section;
- 27) 91.6 mg/scm (0.040 gr/scf) and 0.45 kg/hr (1 lb/hr) for melting furnaces Nos. 6, 7, and 8 at a metal finishing plant in the Village of McCook, with operation limited to no more than two of these furnaces at one time;
- 28) 183 mg/scm (0.080 gr/scf) and 0.91 kg/hr (2 lbs/hr) for holding furnaces Nos. 6, 7, and 8 at a metal finishing plant in the Village of McCook, with operation limited to no more than two of these furnaces at one time;
- 29) 54.9 mg/scm (0.024 gr/scf) and 1.81 kg/hr (4 lbs/hr) for melting furnaces Nos. 24, 25, and 26 at a metal finishing plant in the Village of McCook;
- 30) 34.3 mg/scm (0.015 gr/scf) and 1.81 kg/hr (4 lbs/hr) for melting furnaces Nos. 27, 28, 29, and 30 at a metal finishing plant in the Village of McCook;
- 31) 32.0 mg/scm (0.014 gr/scf) and 0.45 kg/hr (1 lb/hr) for holding furnaces Nos. 24, 25, and 26 at a metal finishing plant in the Village of McCook, except that during fluxing operation those furnaces may emit 195 mg/scm (0.085 gr/scf) and 2.72 kg/hr (6 lbs/hr ~~lb/hr~~);
- 32) 34.3 mg/scm (0.015 gr/scf) and 0.45 kg/hr (1 lb/hr) for holding furnaces Nos. 27, 28, 29, and 30 at a metal finishing plant in the Village of McCook, except that during fluxing operation those furnaces may emit 217 mg/scm (0.095 gr/scf) and 2.72 kg/hr (6 lbs/hr ~~lb/hr~~);
- 33) Fluxing operations at holding furnaces Nos. 24, 25, 26, 27, 28, 29, and 30 at a metal finishing plant in the Village of McCook shall be limited to no more than three at any one time.
- c) Exceptions. The mass emission limits contained in subsection (b) of this Section shall not apply to those emission units ~~sources~~ with no

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

visible emissions other than that of fugitive particulate matter; however, if a stack test is performed, this subsection is not a defense to a finding of a violation of the mass emission limits contained in subsection (b) of this Section.

- d) Maintenance, Repair, and Recordkeeping. The requirements of subsections (f) and (g) of Section 212.324(f) and (g) of this Part shall also apply to this Section.

- e) Compliance--Date. Compliance with this Section is required by December 10, 1993, or upon initial start-up, whichever occurs later.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 22 1996)

SUBPART S: AGRICULTURE

Section 212.461 Grain-Handling and Drying in General

- a) Sections 212.302(a), 212.321, and 212.322 of this Part shall not apply to grain-handling and grain-drying operations, portable grain-handling equipment facilities and one-turn storage space.

- b) Housekeeping Practices. All grain-handling and grain-drying operations, regardless of size, must implement and use the following housekeeping practices:

- 1) Air pollution control devices shall be checked daily and cleaned as necessary to insure proper operation.

- 2) Cleaning and Maintenance.

- A) Floors shall be kept swept and cleaned from boot pit to cupola floor. Roof or bin decks and other exposed flat surfaces shall be kept clean of grain and dust that would tend to rot or become airborne.

- B) Cleaning shall be handled in such a manner as not to permit dust to escape to the atmosphere.

- C) The yard and surrounding open area, including but not limited to ditches and curbs, shall be cleaned to prevent the accumulation of rotting grain.

- 3) Dump Pit.

- A) Aspiration equipment shall be maintained and operated.

- B) Dust control devices shall be maintained and operated.

- 4) Head House. The head house shall be maintained in such a fashion that visible quantities of dust or dirt are not allowed to escape to the atmosphere.

- 5) Property. The yard and driveway of any source facility shall be asphalted, oiled or equivalently treated to control dust.

- 6) Housekeeping Check List. Housekeeping check lists to be developed by the Agency shall be completed by the manager and maintained on the premises for inspection by Agency personnel.

- c) Exemptions. Any existing grain-handling operation for which construction or modification commenced prior to June 30, 1975, having

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

a grain through-put of not more than 2 million bushels per year and located inside a major population area and any existing grain-handling operation or existing grain-drying operation for which construction or modification commenced prior to June 30, 1975, located outside of a major population area which is required to apply for a permit pursuant to Sections 212.462 and 212.463 of this Subpart, respectively, shall receive such permit notwithstanding the control requirements of those respective rules provided said operation can demonstrate that the following conditions exist upon application for, or renewal of, an operating permit:

- 1) The requirements of subsection (b) of this Section are being met; and
- 2) No certified investigation is on file with the Agency indicating that there is an alleged violation prior to issuance of the permit.

- A) If a certified investigation is on file with the Agency indicating an alleged violation, any applicant may obtain an exemption for certain operations if said applicant can prove to the Agency that those parts of his operation for which he seeks exemption are not the probable cause of the alleged violation.

- B) Applicants requesting an exemption in accordance with the provisions of subsection (c)(2)(A) of this Section may be granted an operating permit for a limited time, not to exceed twelve (12) months in duration, if an objection is on file with the Agency on which a certified investigation has not been made prior to issuance of the permit.

- C) An applicant may consider denial of an exemption under this rule as a refusal by the Agency to issue a permit. This shall entitle the applicant to appeal the Agency's decision to the Board pursuant to Section 40 of the Act [415 ILCS 5/40] ~~411-Rev--Stat--1981--Ch--111-1-27-Par--1049.~~

- d) Loss of Exemption. Any existing grain-handling operation or existing grain-drying operation for which construction or modification commenced prior to June 30, 1975, that has received an operating permit pursuant to the provisions of subsection ~~subchapter~~ (c) of this Section ~~above~~ shall apply for an operating and/or construction permit pursuant to 35 Ill. Adm. Code 201 within sixty (60) days after receipt of written notice from the Agency that a certified investigation is on file with the Agency indicating that there is an alleged violation against the operation. The construction permit application shall include a compliance plan and project completion schedule showing the grain-handling operation's program or grain-drying operation's program for complying with the standards and limitations of Section 212.462 or 212.463 of this Subpart as the case may be, within a reasonable time after the date on which notice of a certified investigation indicating alleged pollution was received by said operation; provided, however, any such operation shall not be

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

required to reduce emissions from those parts of the operation that the applicant can prove to the Agency are not the probable cause of the pollution alleged in the certified investigation.

1) The written notice of loss of exemption is not a final action of the Agency appealable to the Board.

2) Denial of a permit requested pursuant to this subsection ~~4d~~ is a final action appealable to the Board under Section 40 of the Act [415 ILCS 5/40] (~~411r-Rev-Stat--1981r--ch--111--1/27--par-1987~~).

e) Circumvention. It shall be a violation of this regulation for any person or persons to attempt to circumvent the requirements of this regulation by establishing a pattern of ownership or source ~~facility~~ development which, except for such pattern of ownership or source ~~facility~~ development, would otherwise require application of Section 212.462 or 212.463 of this Subpart.

f) Standard on Appeal to Board. In ruling on any appeal of a permit denial under subsection (c) or (d) ~~212-462 or 212-463~~ of this Section, the Board shall not order the permit to be issued by the Agency unless the applicant who has appealed the permit denial has proved to the Board that the grain-handling operation or grain-drying operation which is the subject of the denied application is not injurious to human, plant or animal life, to health, or to property, and does not unreasonably interfere with the enjoyment of life or property.

g) Alternate Control of Particulate Emissions.

1) Grain-handling or grain-drying operations, which were in numerical compliance with Section 212.322 of this Part, as of April 14, 1972, and continue to be in compliance with Section 212.322 of this Part need not comply with the provisions under this Subpart, except the housekeeping practices in this subsection ~~4b~~ and this subsection (b) of this Section ~~4g~~.

2) Grain-handling or grain-drying operations, which were not in numerical compliance with Section 212.322 of this Part, as of April 14, 1972, but which came into compliance with Section 212.321 of this Part prior to April 14, 1972, and continue to be in compliance with Section 212.321 of this Part need not comply with the provisions under this Subpart, except the housekeeping practices in this subsection ~~4b~~ and in this subsection (b) of this Section ~~4g~~.

3) Proof of compliance with said rule shall be made by stack sampling and/or material balance results obtained from actual testing of the subject ~~emission unit facility~~ or process and be submitted at the time of an application for, or renewal of, an operating permit.

h) Severability. If any provision of these rules and regulations is adjudged invalid, such invalidity shall not affect the validity of this 35 Ill. Adm. Code, Subtitle B, Chapter I (~~Chapter~~) as a whole or of any Part, Subpart, sentence or clause thereof not adjudged

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

invalid.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1986)

Section 212.462 Grain-Handling Operations

Unless otherwise exempted pursuant to Section 212.461(c) or (d) of this Subpart, or allowed to use alternate control according to Section 212.461(g) of this Subpart, existing grain-handling operations with a total annual grain through-put of 300,000 bushels or more shall apply for an operating permit pursuant to 35 Ill. Adm. Code 201, and shall demonstrate compliance with the following:

a) Cleaning and Separating Operations.

1) Particulate matter generated during cleaning and separating operations shall be captured to the extent necessary to prevent visible particulate matter emissions directly into the atmosphere.

2) For grain-handling sources ~~facilities~~ having a grain through-put of not more than 2 million bushels per year or located outside a major population area, air contaminants collected from cleaning and separating operations shall be conveyed through air pollution control equipment which has a rated and actual particulate removal efficiency of not less than 90 percent % by weight prior to release into the atmosphere.

3) For grain-handling sources ~~facilities~~ having a grain through-put exceeding 2 million bushels per year and located within a major population area, air contaminants collected from cleaning and separating operations shall be conveyed through air pollution control equipment which has a rated and actual particulate removal efficiency of not less than 98 percent % by weight prior to release into the atmosphere.

b) Major Dump-Pit Area.

1) Induced Draft.

A) Induced draft shall be applied to major dump pits and their associated equipment (including, but not limited to, boots, hoppers and legs) to such an extent that a minimum face velocity is maintained, at the effective grate surface, sufficient to contain particulate emissions generated in unloading operations. The minimum face velocity at the effective grate surface shall be at least 200 fpm, which shall be determined by using the equation:

$$V = Q/A$$

where:

V = face velocity; and

Q = induced draft volume in scfm; and

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

A = effective grate area in ft(2) square-feet; and

- B) The induced draft air stream for grain-handling sources ~~facilities~~ having a grain through-put of not more than 2 million bushels per year or located outside a major population area shall be confined and conveyed through air pollution control equipment which has an overall rated and actual particulate collection efficiency of not less than 90 percent ~~by~~ weight; and
- C) The induced draft air stream for grain-handling sources ~~facilities~~ having a grain through-put exceeding 2 million bushels per year and located in a major population area shall be confined and conveyed through air pollution control equipment which has an overall rated and actual particulate collection efficiency of not less than 98 percent ~~by~~ weight; and
- D) Means or devices (including, but not limited to, quick-closing doors, air curtains or wind deflectors) shall be employed to prevent a wind velocity in excess of 50 percent ~~of~~ the induced draft face velocity at the pit; provided, however, that such means or devices do not have to achieve the same degree of prevention when the ambient air wind exceeds 25 mph. The wind velocity shall be measured, with the induced draft system not operating, at a point midway between the dump-pit area walls at the point where the wind exits the dump-pit area, and at a height above the dump-pit area floor of approximately 2 ft feet; or
- 2) Any equivalent method, technique, system or combination thereof adequate to achieve, at a minimum, a particulate matter emission reduction equal to the reduction which could be achieved by compliance with subsection (b)(1) of this Section.
- (Board Note: Pursuant to Section 9 of the Act, certain country grain elevators are exempt from subsection (b) of this Section.)
- c) Internal Transferring Area.
- 1) Internal transferring area shall be enclosed to the extent necessary to prohibit visible particulate matter emissions directly into the atmosphere.
 - 2) Air contaminants collected from internal transfer operations for grain-handling sources ~~facilities~~ having a grain through-put of not more than 2 million bushels per year or located outside a major population area shall be conveyed through air pollution control equipment which has a rated and actual particulate removal efficiency of not less than 90 percent ~~by~~ weight prior to release into the atmosphere.
 - 3) Air contaminants collected from internal transfer operations for grain-handling sources ~~facilities~~ having a grain through-put exceeding 2 million bushels per year and located in a major

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

population area shall be conveyed through air pollution control equipment which has a rated and actual particulate removal efficiency of not less than 98 percent ~~by~~ weight prior to release into the atmosphere.

d) Load-Out Area.

- 1) Truck and hopper car loading shall employ socks, sleeves or equivalent devices which extend 6 inches below the sides of the receiving vehicle, except for topping off. Choke loading shall be considered an equivalent method as long as the discharge is no more than 12 inches above the sides of the receiving vehicle.
- 2) Box car loading shall employ means or devices to prevent the emission of particulate matter into the atmosphere to the fullest extent which is technologically and economically feasible.
- 3) Watercraft Loading.

A) Particulate matter emissions generated during loading for grain-handling sources ~~facilities~~ having a grain through-put of not more than 2 million bushels per year or located outside a major population area shall be captured in an induced draft air stream, which shall be ducted through air pollution control equipment that has a rated and actual particulate matter removal efficiency of not less than 90 percent ~~by~~ weight prior to release into the atmosphere.

B) Particulate matter emissions generated during loading for grain-handling sources ~~facilities~~ having a grain through-put exceeding 2 million bushels per year and located in a major population area shall be captured in an induced draft air stream, which shall be ducted through air pollution control equipment that has a rated and actual particulate removal efficiency of not less than 98 percent ~~by~~ weight prior to release into the atmosphere; except for the portion of grain loaded by trimming machines for which particulate matter emission reductions, at a minimum, shall equal the reduction achieved by compliance with subsection (d)(3)(A) of this Section.

e) New and Modified Grain-Handling Operations. Grain ~~New-and--modified~~ grain-handling operations for which construction or modification commenced on or after June 30, 1975, shall file applications for construction and operating permits pursuant to 35 Ill. Adm. Code 201, and shall comply with the control equipment requirements of this Section, except for ~~new-and-modified~~ grain-handling operations for which construction or modification commenced on or after June 30, 1975, which will handle an annual grain through-put of less than 300,000 bushels; provided, however, that for the purpose of this Subpart, an increase in the annual grain through-put, without physical alterations or additions to the grain-handling operation, shall not be considered a modification unless such increase exceeds 30 percent ~~of~~ the annual grain through-put on which the operation's

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

original construction and/or operating permit was granted. If the grain-handling operation has been operating lawfully without a permit, its annual grain through-put shall be determined as set forth in the definition of the term "annual grain through-put."

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.463 Grain Drying Operations

Unless otherwise exempted pursuant to Section 212.461(c) or (d) of this Subpart or allowed to use alternate control according to Section 212.461(g) of this Subpart, existing grain-drying operations for which construction or modification commenced prior to June 30, 1975, with a total grain-drying capacity in excess of 750 bushels per hour for 5 percent $\frac{1}{2}$ moisture extraction at manufacturer's rated capacity (using the American Society of Agricultural Engineers Standard 248.2, Section 9, Basis for Stating Drying Capacity of Batch and Continuous-Flow Grain Dryers, incorporated by reference in Section 212.113 of this Part) shall be operated in such a fashion as to preclude the emission of particulate matter larger than 300 microns mean particle diameter, shall apply for an operating permit pursuant to 35 Ill. Adm. Code 201, and shall comply with the following:

- a) Column Dryers. The largest effective circular diameter of transverse perforations in the external sheeting of a column dryer shall not exceed 0.094 inch, and the grain inlet and outlet shall be enclosed.
- b) Rack Dryers. No portion of the exhaust air of rack dryers shall be emitted to the ambient atmosphere without having passed through a particulate collection screen having a maximum opening of 50 mesh, U.S. Sieve Series.
 - 1) All such screens will have adequate self-cleaning mechanisms, the exhaust gas of which for grain-handling facilities having a grain through-put of not more than 2 million bushels per year or located outside a major population area shall be ducted through air pollution control equipment which has a rated and actual particulate removal efficiency of 90 percent $\frac{1}{2}$ by weight prior to release into the atmosphere.
 - 2) All such screens will have adequate self-cleaning mechanisms, the exhaust gas of which for grain-handling sources facilities having a grain through-put exceeding 2 million bushels per year and located in a major population area shall be ducted through air pollution control equipment which has a rated and actual particulate removal efficiency of 98 percent $\frac{1}{2}$ by weight prior to release into the atmosphere.
- c) Other Types of Dryers. All other types of dryers shall be controlled in a manner which shall result in the same degree of control required for rack dryers pursuant to subsection (b) of this Section.
- d) New and Modified Grain-Drying Operations. Grain New-and---modified grain-drying operations constructed or modified on or after June 30,

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

1975, shall file applications for construction and operating permits pursuant to 35 Ill. Adm. Code 201, and shall comply with the control equipment requirements of this Section, except for new and modified grain-drying operations which do not result in a total grain-drying capacity in excess of 750 bushels per hour for 5 percent $\frac{1}{2}$ moisture extraction at manufacturer's rated capacity, using the American Society of Agricultural Engineer Standard 248.2, Section 9, Basis for Stating Drying Capacity of Batch and Continuous-Flow Grain Dryers.

(Source: Amended at 20 Ill. Reg. 7605, effective MAY 2 2 1996)

Section 212.464 Sources in Certain Areas

a) Applicability. Notwithstanding Section 212.461 of this Subpart, this Section shall apply to those sources located in the Lake Calumet area as defined in Section 212.324(a)(1)(B) of this Part.

b) Emission limitations

- 1) No person shall cause or allow the emission of PM-10, other than that of fugitive particulate matter, into the atmosphere to exceed 22.9 mg/scm (0.01 gr/scf) during any one hour period from any process emission unit emissions-source engaged in the drying, storing, mixing or treating of grain except for column grain dryers; in addition, no person shall cause or allow visible emissions of PM-10 other than fugitive particulate matter from grain conveying, transferring, loading, or unloading operations, including garners, scales, and cleaners.
- 2) No person shall cause or allow the emission of fugitive particulate matter into the atmosphere from barges and other watercraft, truck or rail loading or unloading systems to exceed the limits specified in Section 212.123 of this Part.
- 3) Column grain dryers shall not be eligible for the exemptions as provided in Section 212.461(g) of this Part.
- c) Exceptions. The mass emission limits contained in subsection (b) of this Section shall not apply to those sources with no visible emissions other than fugitive particulate matter; however, if a stack test is performed, this subsection is not a defense to a finding of a violation of the mass emission limits contained in subsection (b) of this Section.
- d) Maintenance, Repair, and Recordkeeping. The requirements of subsections (f) and (g) of Section 212.324(f) and (g) of this Part shall also apply to this Section.
- e) Compliance Date. Emission units Sources shall comply with the emission limitations and recordkeeping and reporting requirements of this Section May 11 within one year following the effective date of this Section or by December 19, 1993, or upon initial start-up, whichever occurs later is earlier.

- 7) Does this rulemaking contain incorporations by reference? No
- 8) Date Filed in Agency's Principal Office: Order adopted in R94-1(A) on May 16, 1996
- 9) Notice of Proposal Published in Illinois Register: January 26, 1996 (20 Ill. Reg. 1445)
- 10) Has JCAR issued a Statement of Objections to these rules? JCAR issued a letter of No Objection on April 23, 1996.
- 11) Difference(s) between proposal and final version: Corrected Storet numbers for Selenium in tables of Section 302.208(g) and Section 302.407.
- 12) Have all the changes agreed upon by the agency and JCAR been made as indicated in the agreement letter issued by JCAR? No changes indicated.
- 13) Will this rulemaking replace an emergency rule currently in effect? No
- 14) Are there any amendments pending on this Part? No
- 15) Summary and Purpose of Rulemaking: In brief, the Board has included a comprehensive summary in its opinion in R94-1(A) which is available from the address in paragraph (16). A comprehensive summary of the amendments is provided in the Board's Opinion dated May 16, 1996 in Docket R94-1(A) which is available from the Board at the address given below. In brief, the Federal Water Pollution Control Act, commonly known as the Clean Water Act (CWA) 33 U.S.C. 1251 et seq. requires the Environmental Protection Agency to periodically, but at least every three years, review the water quality standards applicable in that State. The agency refers to this as the "Triennial Review". This rulemaking is part of that review. This rulemaking has been certified pursuant to Section 28.2 of the Environmental Protection Act as needed to fulfill the requirements of the Federal Clean Water Act.

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

The amendments revise the General Use Water Quality Standards for lead and mercury. The amendments update the acute standard for lead to reflect updated aquatic toxicity data and add a chronic standard. The amendments change the acute standard for mercury from 0.5 ug/L to 2.6 ug/L and add a chronic standard of 1.3 ug/L. The amendments also correct the STORET number for un-ionized ammonia in Section 302.407.

16) Information and questions regarding these adopted amendments shall be directed to:

Diane F. O'Neill, Attorney
Illinois Pollution Control Board
100 W. Randolph 11-500
Chicago IL 60601
(312) 814-6062

Requests for copies of the May 16, 1996 opinion should be addressed to the Clerk of the Board at the above address and should reference Docket R94-1(A).

The full text of the Adopted Amendment begins on the next page:

AUTHORITY: Implementing Section 13 and authorized by Section 27 of the Environmental Protection Act [415 ILCS 5/13 and 27].

SOURCE: Filled with the Secretary of State January 1, 1978; amended at 2 Ill. Reg. 44, p. 151, effective November 2, 1978; amended at 3 Ill. Reg. 20, p. 95, effective May 17, 1979; amended at 3 Ill. Reg. 25, p. 190, effective June 21, 1979; codified at 6 Ill. Reg. 7818; amended at 6 Ill. Reg. 11161, effective September 7, 1982; amended at 6 Ill. Reg. 13750, effective October 26, 1982; amended at 8 Ill. Reg. 1629, effective January 18, 1984; peremptory amendments at 10 Ill. Reg. 461, effective December 23, 1985; amended at R87-27 at 12 Ill. Reg. 9911, effective May 27, 1988; amended at R85-29 at 12 Ill. Reg. 12082, effective July 11, 1988; amended in R88-1 at 13 Ill. Reg. 5998, effective April 18, 1989; amended in R88-21(A) at 14 Ill. Reg. 2899, effective February 13, 1990; amended in R88-21(B) at 14 Ill. Reg. 11974, effective July 9, 1990; amended in R94-1(A) at 20 Ill. Reg. **7682**, effective **MAY 24 1996**.

BOARD NOTE: This Part implements the Illinois Environmental Protection Act as of July 1, 1994.

SUBPART B: GENERAL USE WATER QUALITY STANDARDS

Section 302.208 Numeric Standards for Chemical Constituents

- The acute standard (AS) for the chemical constituents listed in subsection (ed) shall not be exceeded at any time except as provided in subsection (de).
- The chronic standard (CS) for the chemical constituents listed in subsection (ed) shall not be exceeded by the arithmetic average of at least four consecutive samples collected over any period of at least four days, except as provided in subsection (de). The samples used to demonstrate compliance or lack of compliance with a CS must be collected in a manner which assures an average representative of the sampling period.
- The human health standard (HHS) for the chemical constituents listed in subsection (f) shall not be exceeded when the stream flow is at or above the harmonic mean flow pursuant to Section 302.658 nor shall an annual average, based on at least eight samples, collected in a manner representative of the sample period, exceed the HHS except as provided

Section 302.407 Chemical Constituents

Concentrations of other chemical constituents shall not exceed the following standards:

CONSTITUENT	STORET NUMBER	CONCENTRATION (mg/L±)
Ammonia, Un-ionized (as N)*	0061200619	0.1
Arsenic (total)	01002	1.0
Barium (total)	01007	5.0
Cadmium (total)	01027	0.15
Chromium (total hexavalent)	01032	0.3
Chromium (total trivalent)	01033	1.0
Copper (total)	01042	1.0
Cyanide (total)	00720	0.10
Fluoride (total)	00951	15.0
Iron (total)	01045	2.0
Iron (dissolved)	01046	0.5
Lead (total)	01051	0.1
Manganese (total)	01055	1.0
Mercury (total)	71900	0.0005
Nickel (total)	01067	1.0
Oil, fats and grease	005500,00556 or 00560	15.0**
Phenols	32730	0.3
Selenium (total)	0114700147	1.0
Silver	01077	0.1
Zinc (total)	01092	1.0
Total Dissolved Solids	70300	1500

*For purposes of this section the concentration of un-ionized ammonia shall be computed according to the following equation:

$$U = \frac{N}{[0.94412(1 + 10x) + 0.0559]} \quad \text{where:}$$

$$X = \frac{0.09018 + 2729.92}{(T + 273.16)} - \text{pH}$$

U = Concentration of un-ionized ammonia as N in mg/L±

N = Concentration of ammonia nitrogen as N in mg/L±

T = Temperature in degrees Celsius

POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

**Oil shall be analytically separated into polar and non-polar components if the total concentration exceeds 15 mg/L±. In no case shall either of the components exceed 15 mg/L± (i.e., 15 mg/L± polar materials and 15 mg/L± non-polar materials).

JOINT COMMITTEE ON ADMINISTRATIVE RULES
ILLINOIS GENERAL ASSEMBLY

STATEMENT OF RECOMMENDATION
TO PROPOSED RULEMAKING

DEPARTMENT OF CENTRAL MANAGEMENT SERVICES

Heading of the Part: Pay Plan

Code Citation: 80 Ill Adm Code 310

Date Originally Published in the Illinois Register: 3/15/96

20 Ill Reg 4091

At its meeting on May 21, 1996, the Joint Committee on Administrative Rules considered the above cited rulemaking and recommends that the Department propose and adopt its Pay Plan rulemakings in a more timely manner, whether through regular or peremptory rulemaking, and that it submit copies of collective bargaining agreements, court orders or federal regulations that prompt peremptory rulemaking to the Joint Committee when or before the rulemaking is filed with the Index Department, pursuant to Section 240.300 of the Committee's operational rules.

The agency should respond to this Recommendation in writing within 90 days after receipt of this Statement. Failure to respond will constitute refusal to accede to the Committee's Recommendation. The agency's response will be placed on the JCAR agenda for further consideration.

19 Ill Reg 15331

At its meeting on May 21, 1996, the Joint Committee on Administrative Rules considered the above cited rulemaking and recommends, that before adoption, the Board meet with members of the affected public in an effort to reach agreement on a definition of "part-time police officer" that is less potentially burdensome on local governments and, specifically, the Board is encouraged to view independently the hours an officer works for each local governmental agency in determining whether the officer is a part-time officer for purposes of Part 1770.

The agency should respond to this Recommendation in writing within 90 days after receipt of this Statement. Failure to respond will constitute refusal to accede to the Committee's Recommendation. The agency's response will be placed on the JCAR agenda for further consideration.

SECOND NOTICES RECEIVED

The following second notices were received by the Joint Committee on Administrative Rules during the period of May 21, 1996 through May 27, 1996 and have been scheduled for review by the Committee at its June 25, 1996 meeting. Other items not contained in this published list may also be considered. Members of the public wishing to express their views with respect to a rule should submit written comments to the Committee at the following address: Joint Committee on Administrative Rules, 700 Stratton Bldg., Springfield, IL 62706.

PROCLAMATIONS

96-225

DISASTER AREA - MASON COUNTY

Tornadoes and severe thunderstorms occurring on April 18, 1996, which were part of a severe weather system that moved across central Illinois, inflicted heavy damage in Bath in Mason County. The tornadoes have caused extensive damage to homes, businesses, farms, and public property.

In the interest of responding to the threat imposed to public health and safety as a result of the storm systems, I hereby declare that a disaster exists within the State of Illinois, and specifically identify Mason County as a disaster area, pursuant to the provisions of Section 3305/7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(1992).

This gubernatorial declaration of disaster will aid the Illinois Emergency Management Agency in coordinating the state effort to assist local governments in disaster response and recovery operations, and to assist volunteer resources in providing reasonable and necessary emergency measures for disaster response in any part of the State. This declaration will also provide for the assessment of damages and the determination of a need to request supplemental Federal assistance.

Issued by the Governor May 17, 1996.

Filed by the Secretary of State May 17, 1996.

96-226

DISASTER AREAS - ALEXANDER, BROWN, CUMBERLAND,
HANCOCK AND RICHLAND COUNTIES

Severe thunderstorms and torrential rainfall occurring on May 6, 1996, that fell on already saturated ground, were part of a severe weather system that moved through the State of Illinois, inflicting heavy damage in Alexander, Brown, Cumberland, Hancock and Richland counties. The torrential rainfall caused flooding and flash flooding, which resulted in extensive damage to local roads, homes, businesses, farms, and other property.

In the interest of responding to the threat imposed to public health and safety as a result of the storm systems, I hereby declare that a disaster exists within the State of Illinois, and specifically identify Alexander, Brown, Cumberland, Hancock and Richland counties as disaster areas, pursuant to the provisions of Section 3305/7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(1992).

This gubernatorial declaration of disaster will aid the Illinois Emergency Management Agency in coordinating the state effort to assist local governments in disaster response and recovery operations, and to assist volunteer resources in providing reasonable and necessary emergency measures for disaster response in any part of the State. This declaration will also provide for the assessment of damages and the determination of a need to request supplemental Federal assistance.

Issued by the Governor May 17, 1996.

Filed by the Secretary of State May 17, 1996.

96-227

DISASTER AREAS - KANE, LAKE AND MCHENNY COUNTIES

Severe thunderstorms and torrential rainfall occurring on May 19, 1996, were part of a severe weather system that moved through the northeastern part of the State of Illinois, inflicting heavy damage in Kane, Lake and McHenry counties. The severe weather system delivered up to 5" of rainfall in an 18 hour period causing flooding and flash flooding, which resulted in extensive damage to local roads, homes, businesses, farms, and other property.

In the interest of responding to the threat imposed to public health and safety as a result of the storm systems, I hereby declare that a disaster exists within the State of Illinois, and specifically identify Kane, Lake and McHenry counties as disaster areas pursuant to the provisions of Section 3305/7 of the Illinois Emergency Management Agency Act, 20 ILCS 3305/7(1992).

This gubernatorial declaration of disaster will aid the Illinois Emergency Management Agency in coordinating the state effort to assist local governments in disaster response and recovery operations, and to assist volunteer resources in providing reasonable and necessary emergency measures for disaster response in any part of the State. This declaration will also provide for the assessment of damages and the determination of a need to request supplemental Federal assistance.

Issued by the Governor May 17, 1996.

Filed by the Secretary of State May 17, 1996.

96-228

50TH QUALITY CONGRESS

Whereas, producing quality goods and services is crucial to the continued economic growth of the country and the well-being of each family worldwide; and

Whereas, our nation has long been recognized for its leadership in producing quality products; and

Whereas, quality improvement principles apply to small and large companies, to service and manufacturing industries and to the public sector and private enterprise; and

Whereas, the American Society for Quality Controls (ASQC), an international society with more than 130,000 members worldwide, engaged in its 50th anniversary American Quality Congress to make all people aware that quality is the key to productivity and profitability in our economy; and

Whereas, the Chicago area ASQC sections will sponsor all activities in support of this national awareness campaign;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim May 13-15, 1996, as the 50TH QUALITY CONGRESS in Illinois.

Issued by the Governor May 14, 1996.

Filed by the Secretary of State May 24, 1996.

96-229

ARTS WEEK

Whereas, the arts in all forms are treasures that bring joy to everyone; and

Whereas, our lives are enriched by the art that surrounds us in our everyday environments, the art that is part of our history, and the art of far-away places that we bring home in our hearts and minds; and

Whereas, the arts in Illinois deserve recognition and support so they may continue to flourish in abundant variety; and

Whereas, the Illinois Arts Council and the National Endowment for the Arts are two organizations that play a vital role in bringing the arts to our citizenry; and

Whereas, central to that partnership is the shared belief that freedom of artistic expression must remain unfettered by government interference in its content;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim October 1-6, 1996, as ARTS WEEK in Illinois.

Issued by the Governor May 14, 1996.

Filed by the Secretary of State May 24, 1996.

96-230

QUENTIS BERNARD GARTH FOUNDATION DAY

Whereas, the Quentis B. Garth Foundation was founded by William B. Garth, publisher of the Citizen Newspaper of Chicago in May of 1995 to develop and implement an annual scholarship program for academically gifted public high school graduates; and

Whereas, the foundation will commemorate its second annual scholarship banquet at the Chicago Hilton and Towers on May 18, 1996; and

Whereas, the QBG Foundation will present scholarship awards to two highly gifted high school graduates enrolled at Black institutions of higher learning; and

Whereas, the Quentis Bernard Garth Foundation, through its annual scholarship award program, seeks to engender in the minds of today's urban youth that the quality of one's education is commensurate with the quality of one's life in terms of job opportunities in high technological labor markets, cultural assimilation, social interactions, and in the development of wholesome and enduring human relationships;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim May 18, 1996, as QUENTIS BERNARD GARTH FOUNDATION DAY in Illinois and I extend similar recognition and honor to the foundation's two academically gifted students seeking higher educational goals at this nation's historically Black colleges or universities.

Issued by the Governor May 14, 1996.

Filed by the Secretary of State May 24, 1996.

96-231

ACCESS LIVING DAY

Whereas, Access Living is a cross-disability organization governed and staffed by a majority of people with disabilities; and

Whereas, Access Living fosters the dignity, pride, and self-esteem of people with disabilities and enhances the options available to them so they may choose and maintain individualized and satisfying lifestyles; and

Whereas, Access Living offers many peer-oriented independent living services, public education, awareness and development, individual and systematic advocacy and enforcement of civil rights on behalf of persons with disabilities; and

Whereas, Access Living recognizes the innate rights, abilities, needs and diversity of people with disabilities, works toward their integration into community life and serves as an agent of social change; and

collisions which account for needless injuries and loss of life.
Issued by the Governor May 15, 1996.

Filed by the Secretary of State May 24, 1996.

96-234

SURGICAL TECHNOLOGISTS WEEK

Whereas, the Association of Surgical Technologists was founded in 1969 and has more than 16,000 members worldwide; and

Whereas, the Association of Surgical Technologists is committed to promote a high standard of surgical technology performance in the community for quality patient care; and

Whereas, the surgical technologist is a health care professional who has completed an education to perform specialized duties during surgical procedures; and

Whereas, surgical technologists are knowledgeable in many areas that affect a surgical procedure, anticipate the instrument needs of the surgeon, have an understanding of the procedure being performed, and are constantly on vigil to ensure quality patient care; and

Whereas, the job of the surgical technologist is of great importance to the doctors, patients, and hospitals;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim May 19-25, 1996, as SURGICAL TECHNOLOGISTS WEEK in Illinois.

Issued by the Governor May 15, 1996.

Filed by the Secretary of State May 24, 1996.

96-235

TELEPHONE OPERATORS' WEEK

Whereas, telephone operators are vital to the functions of every business and provide an important service to people everywhere; and

Whereas, this is particularly true in hospitals, where telephone operators are responsible for public address systems, radio paging systems, and physicians' answering services and registers, in addition to running a switchboard. They are also responsible for alerting code and trauma teams and the fire department; and

Whereas, telephone operators are at the core of the communications network, serving physicians, emergency services and hospital personnel, patients, and visitors; and

Whereas, the third week of May has been designated as a time to honor all telephone operators;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim May 12-18, 1996, as TELEPHONE OPERATORS' WEEK in Illinois and encourage everyone to honor their local telephone operators.

Issued by the Governor May 15, 1996.

Filed by the Secretary of State May 24, 1996.

Whereas, during the past 16 years, Access Living has been able to touch the lives of nearly 3,000 people a year with a variety of innovative programs; and

Whereas, on May 16, 1996, Access Living is holding its annual benefit; Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim May 16, 1996, as ACCESS LIVING DAY in Illinois in honor of their accomplishments and offer my best wishes for continued success.

Issued by the Governor May 15, 1996.

Filed by the Secretary of State May 24, 1996.

96-232

MEMPHIS IN MAY/KANSAS CITY BARBEQUE SOCIETY/
ILLINOIS STATE CHAMPIONSHIP DAYS

Whereas, a distinguished event called the Memphis in May/Kansas City Barbecue Society/Illinois State Championships will take place in Springfield during September 1996; and

Whereas, there has never been an event anywhere in the country that has had this distinction; and

Whereas, spectators from many locales will come to watch the finest barbecue cooks in the country compete; and

Whereas, each team will travel from out-of-state to compete in the event, with an average of eight cooks and assistant cooks on each team; and

Whereas, the State of Illinois is honored that Springfield has been chosen as the site of this distinguished state championship;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim September 27-29, 1996, as MEMPHIS IN MAY/KANSAS CITY BARBEQUE SOCIETY/ILLINOIS STATE CHAMPIONSHIPS DAYS in Illinois in recognition of this exciting and honorable event.

Issued by the Governor May 15, 1996.

Filed by the Secretary of State May 24, 1996.

96-233

OPERATION LIFESAVER AWARENESS DAY

Whereas, the Illinois Railroad Grade Crossing Safety Council was established to call attention to the dangers of highway/rail grade crossings; and

Whereas, it has done so through a project called "Operation Lifesaver", a coordinated effort of the railroads, state agencies, traffic safety groups, rail labor, police organizations and transportation companies; and

Whereas, many of these vehicle/train collisions could have been prevented by increasing public awareness of crossing dangers and applicable driving safety laws; and

Whereas, on May 15, 1996, and throughout the year following, all citizens are encouraged to use added caution when approaching highway/rail crossings; and

Whereas, this important observance should lead to greater safety and a reduction in highway/rail grade crossing collisions;

Therefore, I, Jim Edgar, Governor of the State of Illinois, proclaim May 15, 1996, as OPERATION LIFESAVER AWARENESS DAY in Illinois and encourage all citizens to reaffirm their commitment to the elimination of grade crossing

Rules acted upon during the quarter of April 1 through June 30, 1996 are listed in the Issues Index by Title number, Part number and Issue number. For example, 50 Ill. Adm. Code 952 published in Issue 2 will be listed as 50-952-2. Inquiries about the Issues Index may be directed to the Administrative Code Division at 217-782-4414 or jnatale@ccgate.sos.state.il.us (Internet address).
